Index of Subjects

VOLUME 115 (2004)

- Absence;** Epilepsy; EEG; Photosensitivity; Succinic semialdehyde dehydrogenase (SSADH) deficiency; Heterozygosity (115) 1417
- Absolute refractory period;** Motor evoked potentials; Transcranial electrical stimulation; Scoliosis; Corticospinal tract; D wave (115) 1931
- Acceleration;** Brainhemorrhage; Traumatic; Deceleration; Diffuse axonal injury; Electrophysiology; Neurophysiology (115) 4
- Accessory nerve;** Facial nerve; Hypoglossal nerve; Magnetic stimulation; Hereditary motor and sensory neuropathy (115) 1689
- Acetylcholinesterase inhibitor;** Alzheimer's disease; Donepezil; Brain single photon emission computed tomography; Quantitative EEG; Statistical parametric mapping (115) 39
- Actigraphy;** Restless legs; Diagnosis; Polysomnography; Periodic limb movements; Sleep; Electromyography; Clinical grading; Therapeutic evaluation; Suggested immobilization test (115) 1965
- Action observation;** EEG; Wavelets; Beta rhythm; Mirror neurons (115) 1760
- Active;** Passive; Attention; Deviant alone; P100; N140 (115) 871
- Acute;** Spinal cord injury; Human; Prognosis; Tendon reflex; EMG; Crossed-adductor response (115) 2350
- Acute inflammatory demyelinating polyradiculoneuropathy;** Guillain–Barre syndrome; Neurophysiology (115) 2329
- Acute repetitive seizures;** Pilomotor seizure; Goose bumps (115) 2511
- Adaptation;** Motor learning; Obstacle avoidance; Muscle activity; Kinematics (115) 2134
- Adapted multiple point stimulation method;** Extensor digitorum brevis motor units; Amyotrophic lateral sclerosis; Peripheral neuropathies (115) 557
- Adaptive classification;** Electroencephalography; Lorazepam; Magnetoencephalography; Microstructure; Short-term spectral patterns (115) 674
- Addiction;** Methamphetamine; Quantitative EEG; Reaction time (115) 194
- Adolescence;** Contingent negative variation; Event-related desynchronization; Orienting reaction; Movement preparation; Childhood (115) 1836
- Adolescents;** EEG correlation index; Visual discrimination; Visual perception disabilities; Occupational outcome (115) 2574
- Adolescents;** EEG correlation index; Reading; Dyslexia; Reading and writing impairment; Occupational outcome (115) 2584
- Adults;** Auditory ERP; Children; Word recognition; Phonological priming (115) 409
- Afference;** Motor cortex; Passive movement; Plasticity; Transcranial magnetic stimulation; Stroke (115) 765
- A-δ fibers;** Cutaneous silent period; Exteroceptive suppression; Spinal cord; Muscle synergy (115) 1052
- A-δ fibers;** Cutaneous silent period; Exteroceptive suppression; Long loop reflex; Side-to-side difference; Gender; Normal values (115) 2123
- Afterdischarge;** Electrical stimulation; Focal epilepsy (115) 982
- Age;** Sleep spindle; Sleep; K complex (115) 471
- Aging;** Non REM sleep; Event related potential (115) 732
- Aging;** N100; CNV; Attentional cueing (115) 2602
- Alcohol;** Transcranial brain stimulation; Motor cortex; Cerebral cortex atrophy; Transcranial magnetic stimulation (115) 112
- Alcohol;** Brain; EEG; Social drinking; Synchronisation; Theta; Gamma; Students (115) 2048
- Alcoholism heritability;** Event-related potentials; P300; Tobacco; Smoking (115) 1374
- Algorithm;** Electroencephalography; Seizure detection; Neural network; Matching pursuit; Clustering (115) 2280
- Alpha;** Laterality; Electroencephalography; Hemispheric specialization (115) 1575
- Alpha;** Spectral analysis; Theta; Beta (115) 1802
- Alpha and beta oscillations;** Long-range temporal correlations; Spontaneous oscillations; Electroencephalography; Detrended fluctuation analysis (115) 1896

- Alpha phase;** EEG; Auditory oddball task; Event-related potentials; Brain dynamics (115) 2593
- Alpha rhythm;** Short term memory; Delayed choice reaction time; Cerebral cortex; Electroencephalography; Theta rhythm; Event related desynchronization/synchronization (115) 161
- Alpha rhythm;** Mild Alzheimer's disease; Vascular dementia; Electroencephalography; Delta rhythm (115) 299
- Alpha rhythm;** Electroencephalography; Database; Background activity; Computer Systems; Data interpretation; Medical records systems; Quality management (115) 665
- Alpha/theta;** Physiological self-regulation; EEG biofeedback; Spectral EEG topography; Low beta; beta1 (115) 2452
- Alzheimer's disease;** Donepezil; Acetylcholinesterase inhibitor; Brain single photon emission computed tomography; Quantitative EEG; Statistical parametric mapping (115) 39
- Alzheimer's disease;** EEG; Mild cognitive impairment; Working memory; Synchronization likelihood (115) 1332
- Alzheimer's disease;** Electroencephalography; Linear; Nonlinear; Complexity; Diagnosis; Clinical neurophysiology (115) 1490
- γ -Aminobutyric acid;** Flumazenil; Benzodiazepine; Cortical excitability; Transcranial magnetic stimulation (115) 325
- Amyotrophic lateral sclerosis;** Magnetoencephalography; Auditory processing; Event related potential; Mismatch negativity; Glutamate (115) 309
- Amyotrophic lateral sclerosis;** Transcranial magnetic stimulation; Triple stimulation technique (115) 356
- Amyotrophic lateral sclerosis;** Extensor digitorum brevis motor units; Adapted multiple point stimulation method; Peripheral neuropathies (115) 557
- Amyotrophic lateral sclerosis;** Automaticity; Slow cortical potential; Brain-computer interface; Skill; Locked-in syndrome (115) 628
- Amyotrophic lateral sclerosis;** Repetitive transcranial magnetic stimulation; Glutamate; Excitotoxicity (115) 1479
- Amyotrophic lateral sclerosis;** Somatosensory evoked potentials; Median nerve; N10; Far-field potential (115) 2645
- Analytic amplitude;** gamma EEG oscillations; Hilbert transform; Information; Order parameter; Stability; Synchrony (115) 2077
- Analytic phase;** Basis function; Phase cone; Phase gradient; Self-organized criticality; Spatial EEG pattern; Spontaneous cortical activity (115) 2089
- Angelman syndrome;** Sleep; Polysomnography; Electroencephalogram patterns (115) 938
- Animal behavior;** Stochastic resonance; Sensory information processing; Revue of application; Vision; Tactile; Hearing; Perception; Psychophysics; Electrophysiology; Hearing prostheses; Modeling (115) 267
- Animal studies;** Restless legs syndrome; Periodic limb movements; Pathophysiology; Dopamine; Opioids; Neurophysiology (115) 1975
- Anterior cingulate cortex;** Attention deficit/hyperactivity disorder; Prefrontal response control; Response inhibition (115) 973
- Anterior cingulate cortex;** Supplementary motor area; Error-related negativity; Motor potentials; Event-related potentials; Theta; Oscillations; Phase resetting (115) 1821
- Antero-posterior changes;** First night effect; Sleep adaptation; Cortical topography (115) 1178
- Anticipatory postural adjustment;** Posture; Electromyography; Human (115) 797
- Antiepileptic drugs;** Cognitive functions; Epilepsy; Lateral superior olive; Medial superior olive; Audition (115) 2711
- Antipsychotics;** Evoked potentials; P50; Schizophrenia; Clozapine (115) 396
- Antiretroviral therapy;** Human immunodeficiency virus; P3a; P3b; Viral load (115) 1583
- Area 3b;** Somatosensory evoked field; String players; Digit representation; High frequency oscillation; Fast spiking inhibitory interneuron; Training dependent reorganization (115) 435
- Area 3b;** Primary somatosensory cortex; Tactile interference; Thumb; Little finger; Forearm; Magnetoencephalography (MEG) (115) 2638
- Arousal;** Electrodermal activity; Theta/beta ratio; Attention deficit/hyperactivity disorder (115) 402
- Arousal;** Somatosensory evoked potentials; High-frequency oscillations; 600 Hz; Somatosensory system (115) 1392
- Arousal;** Awakening; Sleep deprivation; Heart rate; Sleep state; Autonomic system (115) 2442
- Arousal level;** CNV; Spontaneous EEG; Inverted-U shaped dose response curve (115) 2693
- Artefact;** Spatio-temporal decomposition; Feature extraction; Principal component analysis; Cluster analysis; Blind separation; Focal activity; Reconstruction (115) 227
- Artifacts;** Electroencephalography; Functional magnetic resonance imaging; Event-related potentials; P300 (115) 2181
- Asphyxia;** Hearing; Auditory function; Brain-stem auditory evoked response; Evoked potentials; Neonate; Hypoxia-ischaemia (115) 1605
- Asphyxia;** EEG; Neonate; Spectral analysis (115) 2461
- Associative learning;** Cerebellum; Limb flexion response; Human (115) 849
- Ataxia;** Cerebellum; Cortical silent period; Motor evoked potential recruitment curve; Motor evoked potential; Transcranial magnetic stimulation (115) 348

- Attention;** EEG biofeedback; Neurofeedback; Beta1 activity; Sensorimotor rhythm; P300 (115) 131
- Attention;** Event related potential; Readiness potential; Motor learning; Training; Habituation (115) 378
- Attention;** Magnetoencephalography; Pain; C fiber; Electroencephalogram (115) 636
- Attention;** Passive; Active; Deviant alone; P100; N140 (115) 871
- Attention;** Magnetoencephalography; Mismatch negativity; N100; Auditory cortex; Sensory memory (115) 898
- Attention;** Laser-evoked potential; Event-related desynchronization; Electrocorticography; Intensity; Pain (115) 1641
- Attention;** Two-point discrimination; Event-related potentials; Judgment; P3a; P3b (115) 1875
- Attention;** Somatosensory evoked potentials; Centrifugal gating; Voluntary movement (115) 2223
- Attention;** Iron deficiency; Children; Psychomotor development; P300; ERPs (115) 2259
- Attention;** Resource; N140; P300; Dual task (115) 2616
- Attentional cueing;** N100; CNV; Aging (115) 2602
- Attention deficit/hyperactivity disorder;** Arousal; Electrodermal activity; Theta/beta ratio (115) 402
- Attention deficit/hyperactivity disorder;** Anterior cingulate cortex; Prefrontal response control; Response inhibition (115) 973
- Attention-deficit/hyperactivity disorder;** Cognitive evoked potential (P300) topography; Methylphenidate (115) 188
- Attention-deficit/hyperactivity disorder;** Go/NoGo; N2; Inhibition (115) 1320
- Attention-deficit hyperactivity disorder;** Event-related brain potentials; Visual selective attention; Source localization; Frontal selection positivity; N2b (115) 1537
- Audition;** Antiepileptic drugs; Cognitive functions; Epilepsy; Lateral superior olive; Medial superior olive (115) 2711
- Auditory brain-stem response;** Discrete wavelet analysis (115) 1129
- Auditory brainstem response;** Speech syllable response; Brain-stem response; Frequency-following response; Effects of noise (115) 2021
- Auditory brainstem response;** q-Sequence; Deconvolution; QSD; Superposition; Quasi-periodic; Evoked-responses; Stimulus rate; Overlapped responses (115) 2754
- Auditory cortex;** Magnetoencephalography; Mismatch negativity; N100; Attention; Sensory memory (115) 898
- Auditory cortex;** Magnetoencephalography; Magnetic source imaging; Auditory evoked potentials; Auditory perception (115) 906
- Auditory cortex;** Streaming; F-complex; Evoked potentials (115) 1083
- Auditory ERP;** Children; Adults; Word recognition; Phonological priming (115) 409
- Auditory evoked fields;** N100m response; Equivalent current dipole; Tonotopic organization; Short-term plastic change; Selective attention; Tonotopic map (115) 1592
- Auditory evoked potential;** Object naming; Very low birth weight children; Mismatch negativity (MMN) (115) 179
- Auditory evoked potential;** Phase synchronization; Schizophrenia; Gating; Suppression; Electroencephalogram (115) 523
- Auditory evoked potential;** Steady state evoked potential; Oscillatory activity; Human (115) 699
- Auditory evoked potentials;** Magnetoencephalography; Magnetic source imaging; Auditory cortex; Auditory perception (115) 906
- Auditory evoked potentials;** Wavelet analysis (115) 1114
- Auditory evoked response;** Power and phase modulation; Time-frequency representations; Tempo; Music and speech processing (115) 1885
- Auditory function;** Hearing; Brain-stem auditory evoked response; Evoked potentials; Neonate; Asphyxia; Hypoxia-ischaemia (115) 1605
- Auditory oddball task;** EEG; Alpha phase; Event-related potentials; Brain dynamics (115) 2593
- Auditory perception;** Magnetoencephalography; Magnetic source imaging; Auditory evoked potentials; Auditory cortex (115) 906
- Auditory processing;** Amyotrophic lateral sclerosis; Magnetoencephalography; Event related potential; Mismatch negativity; Glutamate (115) 309
- Auditory processing;** Cochlear implant; Music; Electroencephalogram; Early right anterior negativity; Mismatch negativity; N5 (115) 966
- Autism;** Electroencephalography; Pervasive developmental disorder; Rapid eye movement sleep; Visual cortex (115) 1368
- Autoimmunity;** Carpal tunnel syndrome; Chronic inflammatory demyelinating polyneuropathy; Entrapment (115) 1140
- Autonomic;** Cardiac; Heart; Sleep; Sympathetic; Parasympathetic (115) 19
- Automatic detection;** Interictal spike; Epilepsy; Independent component analysis; RAP-MUSIC (115) 508
- Automatic detection;** Independent component analysis; Blind source separation; Discrepancy (115) 1220
- Automaticity;** Slow cortical potential; Brain-computer interface; Skill; Amyotrophic lateral sclerosis; Locked-in syndrome (115) 628
- Autonomic nervous system;** Sinus arrests; Sleep; Heart rate variability (115) 946

- Autonomic nervous system;** Multiple sclerosis; Heart rate; Blood pressure; Magnetic resonance imaging (115) 1473
- Autonomic system;** Arousal; Awakening; Sleep deprivation; Heart rate; Sleep state (115) 2442
- Averaging;** Temporal lobe epilepsy; Electroencephalogram; Foramen ovale electrodes; Dipole modelling (115) 1423
- Awakening;** Arousal; Sleep deprivation; Heart rate; Sleep state; Autonomic system (115) 2442
- Background activity;** Electroencephalography; Database; Alpha rhythm; Computer Systems; Data interpretation; Medical records systems; Quality management (115) 665
- Background EEG;** Sleep; Epilepsy; Vagus nerve stimulation; Slow wave activity; Interictal epileptiform activity (115) 658
- Ballistic movement;** Muscle pain; Muscle performance; Motor system (115) 1779
- Basal ganglia;** Movement disorder; Parkinson's disease; Essential tremor; Dystonia; High-frequency stimulation; Thalamus (115) 1239
- Basal ganglia;** Thalamus; Neuronal activity; Microrecording; Stereotactic surgery; Dystonia (115) 2542
- Basis function;** Analytic phase; Phase cone; Phase gradient; Self-organized criticality; Spatial EEG pattern; Spontaneous cortical activity (115) 2089
- Benign childhood epilepsy with centrotemporal spikes;** Negative myoclonus; Carbamazepine; Jerk-locked averaging; Segmentation; Topographic analysis (115) 50
- Benzodiazepine;** Flumazenil; γ -Aminobutyric acid; Cortical excitability; Transcranial magnetic stimulation (115) 325
- Benzodiazepine administration;** Creutzfeldt-Jakob disease; Non-convulsive status epilepticus; Electroencephalogram; Differential diagnosis (115) 316
- Bereitschaftspotential;** Traumatic brain injury; Frontal lobe; EEG; Movement related potential; Supplementary motor area (115) 289
- Bereitschaftspotential;** Traumatic brain injury; Frontal lobe; EEG; Movement-related potential; Recovery (115) 2677
- Beta;** Spectral analysis; Theta; Alpha (115) 1802
- Beta rhythm;** EEG; Wavelets; Action observation; Mirror neurons (115) 1760
- beta1;** Physiological self-regulation; EEG biofeedback; Spectral EEG topography; Low beta; Alpha/theta (115) 2452
- Beta1 activity;** EEG biofeedback; Neurofeedback; Sensorimotor rhythm; Attention; P300 (115) 131
- Binding;** Schizophrenia; Gamma; EEG; Event-related potential; Frontal lobe (115) 1863
- Biomagnetism;** Evoked magnetic compound action field; Evoked compound action potential; Conduction block; Peripheral nerve; Sciatic nerve; Neuromagnetic recording (115) 2113
- Bite-bar;** MEG-MRI co-registration; Fiducial localization error; Target registration error; Monte Carlo simulation (115) 691
- Blind separation;** Spatio-temporal decomposition; Feature extraction; Artefact; Principal component analysis; Cluster analysis; Focal activity; Reconstruction (115) 227
- Blind source separation;** Independent component analysis; Automatic detection; Discrepancy (115) 1220
- Blink reflex;** Tourette syndrome; Tic (115) 320
- Blink reflex;** Transcranial magnetic stimulation; Motor cortex; Frontal cortex; Facial muscle (115) 341
- Blink reflex;** Blink reflex excitability; Prepulse inhibition; Huntington's disease; Parkinson's disease (115) 1527
- Blink reflex;** Central nervous system; Systemic sclerosis (115) 1917
- Blink reflex excitability;** Blink reflex; Prepulse inhibition; Huntington's disease; Parkinson's disease (115) 1527
- Blinking;** Principal component analysis; Ocular artefacts; Dyslexia; Event related potential; Single sweep analysis (115) 609
- Blood pressure;** Multiple sclerosis; Heart rate; Autonomic nervous system; Magnetic resonance imaging (115) 1473
- Body sway;** Galvanic; Electrical; Vestibular evoked myogenic potential; Labyrinth; Posturography (115) 807
- Botulinum toxin treatment;** Hyperhidrosis; Evaporimetry; Conductance; Subjective evaluation of sweating (115) 1909
- Brachial plexus lesion;** Lower brachial plexus; Medial antebrachial cutaneous nerve; Electrodagnosis; Nerve conduction; Thoracic outlet syndrome; Neurogenic thoracic outlet syndrome; Traumatic brachial plexus lesion; Neoplastic brachial plexus lesion (115) 2316
- Brain;** Alcohol; EEG; Social drinking; Synchronisation; Theta; Gamma; Students (115) 2048
- Brain dynamics;** EEG; Alpha phase; Auditory oddball task; Event-related potentials (115) 2593
- Brain single photon emission computed tomography;** Alzheimer's disease; Donepezil; Acetylcholinesterase inhibitor; Quantitative EEG; Statistical parametric mapping (115) 39
- Brain symmetry index (BSI);** EEG; Carotid surgery; Endarterectomy (115) 1189
- Brain ultrasound lesions;** Neonatal EEG; Temporal sharp waves; Premature infants; Neonatal neurodevelopmental assessment (115) 2479

- Brain-computer interface;** Automaticity; Slow cortical potential; Skill; Amyotrophic lateral sclerosis; Locked-in syndrome (115) 628
- Brain-computer interface;** Mu rhythm; Electroencephalography; Sensorimotor cortex; Rehabilitation; Common spatial subspace decomposition (115) 745
- Brain-computer interface (BCI);** Electroencephalography (EEG); Motor imagery; Event-related desynchronization (ERD); Spatial correlation; Time-frequency weighting (115) 2744
- Brainhemorrhage;** Acceleration; Traumatic; Deceleration; Diffuse axonal injury; Electrophysiology; Neurophysiology (115) 4
- Brain-stem;** Modafinil; Somatosensory evoked potentials; High frequency oscillations; Sleep (115) 919
- Brain-stem auditory evoked potentials;** Krabbe disease; Visual evoked potentials; Neurophysiologic studies (115) 1653
- Brain-stem auditory evoked response;** Hearing; Auditory function; Evoked potentials; Neonate; Asphyxia; Hypoxia-ischemia (115) 1605
- Brain-stem malformation;** Uncrossed sensorimotor pathways; Somatosensory evoked potentials; Motor evoked potentials; Intraoperative monitoring; Horizontal gaze palsy; Scoliosis (115) 576
- Brainstem response;** Speech syllable response; Auditory brainstem response; Frequency-following response; Effects of noise (115) 2021
- Button-press;** Event-related potentials; Motor-related potentials; P3(00); Scalp topography (115) 1550
- C fiber;** Magnetoencephalography; Pain; Attention; Electroencephalogram (115) 636
- Canine EEG;** Canine normal EEG pattern; Dog epilepsy (115) 477
- Canine normal EEG pattern;** Canine EEG; Dog epilepsy (115) 477
- Carbamazepine;** Benign childhood epilepsy with centrotemporal spikes; Negative myoclonus; Jerk-locked averaging; Segmentation; Topographic analysis (115) 50
- Cardiac;** Autonomic; Heart; Sleep; Sympathetic; Parasympathetic (115) 19
- Cardiac surgery;** Phrenic nerve conduction; Phrenic nerve palsy; Infant; Diaphragmatic action potential; Diaphragmatic plication (115) 1469
- Carotid surgery;** EEG; Endarterectomy; Brain symmetry index (BSI) (115) 1189
- Carpal tunnel syndrome;** ECTR; OCTR; Median nerve; Injury (115) 59
- Carpal tunnel syndrome;** Ultrasound; Median nerve; Muscle; Imaging; Peripheral nerve; Nerve motion; Fasciculation; Median artery (115) 495
- Carpal tunnel syndrome;** Chronic inflammatory demyelinating polyneuropathy; Entrapment; Autoimmunity (115) 1140
- Carpal tunnel syndrome;** Therapy; Steroids; Clinical follow-up; Electrophysiology (115) 1464
- Carpal tunnel syndrome;** Current perception threshold; Progression; Clinical grade; Small fibers (115) 1921
- Carpal tunnel syndrome;** Entrapment neuropathy; Median nerve; Palmar cutaneous branch; Nerve conduction study; Orthodromic stimulation (115) 2514
- Carpal tunnel syndrome;** CTS; Electrodiagnosis; Retrograde axonal atrophy; Motor conduction (115) 2783
- Cathodal electrical stimulation;** Intracortical inhibition; Transcranial magnetic stimulation (115) 755
- Center of gravity;** Extensor digitorum communis; Motor mapping; Reliability (115) 1740
- Central activation;** Chronic fatigue syndrome; Sustained maximal voluntary contraction (115) 2518
- Central auditory processing;** Mismatch negativity; Event related potential; Sound discrimination (115) 140
- Central cues;** Visuospatial attention; Peripheral cues; P1; Event-related potentials (115) 199
- Central nervous system;** Blink reflex; Systemic sclerosis (115) 1917
- Centrifugal gating;** Somatosensory evoked potentials; Attention; Voluntary movement (115) 2223
- Cerebellum;** Ataxia; Cortical silent period; Motor evoked potential recruitment curve; Motor evoked potential; Transcranial magnetic stimulation (115) 348
- Cerebellum;** Associative learning; Limb flexion response; Human (115) 849
- Cerebral aneurysm;** Delayed cerebral ischemia; Subarachnoid hemorrhage; Vasospasm; Continuous EEG monitoring (115) 2699
- Cerebral cortex;** Short term memory; Delayed choice reaction time; Electroencephalography; Theta rhythm; Alpha rhythm; Event related desynchronization/synchronization (115) 161
- Cerebral cortex atrophy;** Transcranial brain stimulation; Motor cortex; Alcohol; Transcranial magnetic stimulation (115) 112
- Cerebrovascular accident;** Postural control; Reflex; Weight-bearing (115) 2789
- Cervical dystonia;** High-frequency oscillations; Interneurons; N20 potential; Somatosensory evoked potentials (115) 1624
- Charcot-Marie-Tooth disease;** Nerve conduction study; Morphometry (115) 64
- Chemosensory event-related potentials;** Local anesthesia; Olfaction (115) 1384

- Child;** Dystonia; Intrathecal baclofen; H reflex; Flexor reflex (115) 774
- Childhood;** Contingent negative variation; Event-related desynchronization; Orienting reaction; Movement preparation; Adolescence (115) 1836
- Children;** Auditory ERP; Adults; Word recognition; Phonological priming (115) 409
- Children;** Major depression; Distractibility; Event-related potential; Mismatch negativity; P3a (115) 620
- Children;** Institutional review board; Minimal risk; Ethics; Neurophysiology; Transcranial magnetic stimulation (115) 1730
- Children;** EEG; Coherence; Gender; Development (115) 2252
- Children;** Iron deficiency; Psychomotor development; P300; ERPs; Attention (115) 2259
- Cholinergic transmission;** Cortical dementia; Neurophysiology; Diagnostic protocols (115) 2410
- Chronic fatigue syndrome;** Central activation; Sustained maximal voluntary contraction (115) 2518
- Chronic inflammatory demyelinating polyneuropathy;** Carpal tunnel syndrome; Entrapment; Autoimmunity (115) 1140
- Clinical follow-up;** Carpal tunnel syndrome; Therapy; Steroids; Electrophysiology (115) 1464
- Clinical grade;** Current perception threshold; Carpal tunnel syndrome; Progression; Small fibers (115) 1921
- Clinical grading;** Restless legs; Diagnosis; Polysomnography; Actigraphy; Periodic limb movements; Sleep; Electromyography; Therapeutic evaluation; Suggested immobilization test (115) 1965
- Clinical neurophysiology;** Alzheimer's disease; Electroencephalography; Linear; Nonlinear; Complexity; Diagnosis (115) 1490
- Clinical neurophysiology;** Pediatric epilepsy surgery; Quantitative ictal intracranial electroencephalography; Focal cortical dysplasia; Tuberous sclerosis complex (115) 2718
- Clozapine;** Evoked potentials; P50; Schizophrenia; Antipsychotics (115) 396
- Cluster analysis;** Spatio-temporal decomposition; Feature extraction; Artefact; Principal component analysis; Blind separation; Focal activity; Reconstruction (115) 227
- Clustering;** Electroencephalography; Seizure detection; Algorithm; Neural network; Matching pursuit (115) 2280
- CNS active drugs;** Transcranial magnetic stimulation; Neuropharmacology; Motor cortical excitability; Motor evoked potential; Corticospinal projection; Human (115) 1717
- CNV;** N100; Aging; Attentional cueing (115) 2602
- CNV;** Arousal level; Spontaneous EEG; Inverted-U shaped dose response curve (115) 2693
- Cochlear implant;** Auditory processing; Music; Electroencephalogram; Early right anterior negativity; Mismatch negativity; N5 (115) 966
- Cochlear implant;** Compound action potential; Psychophysical levels; Neural response telemetry; Hierarchical regression analysis; Jack-knife validation (115) 2811
- Cognitive evoked potential (P300) topography;** Attention-deficit/hyperactivity disorder; Methylphenidate (115) 188
- Cognitive functions;** Antiepileptic drugs; Epilepsy; Lateral superior olive; Medial superior olive; Audition (115) 2711
- Cognitive preparedness;** Electroencephalographic; Peak alpha frequency; Traumatic brain injury; Working memory; Trait; State; Resting baseline (115) 887
- Coherence;** Interhemispheric functional correlation; Steady-state evoked potentials; Visual systems; Cortico-cortical connectivity (115) 1409
- Coherence;** Children; EEG; Gender; Development (115) 2252
- Coherence;** EEG; Connectivity; Motor control; Volume conduction; Time-lag (115) 2292
- Coil design;** Transcranial magnetic stimulation; Electric field properties; Focality; Efficiency (115) 1697
- Coil orientation;** Motor evoked potentials; Transcranial magnetic stimulation; Motor cortex; Facial muscles; Current direction (115) 862
- Collision Technique;** Transcranial magnetic stimulation; Thenar; Hypothenar; Motor-evoked potentials (115) 2558
- Colour vision;** Pupil response; Optic neuritis; Demyelination; Ganglion cell (115) 2650
- Common spatial subspace decomposition;** Mu rhythm; Electroencephalography; Sensorimotor cortex; Rehabilitation; Brain-computer interface (115) 745
- Complexity;** Alzheimer's disease; Electroencephalography; Linear; Nonlinear; Diagnosis; Clinical neurophysiology (115) 1490
- Compound action field;** Magnetoneurography; Electroneurography; Magnetic field; Superconducting quantum interference device (SQUID); Conduction block; Peripheral nerve (115) 2667
- Compound action potential;** Cochlear implant; Psychophysical levels; Neural response telemetry; Hierarchical regression analysis; Jack-knife validation (115) 2811
- Compound muscle action potential;** Temperature; Repetitive nerve stimulation; Short exercise test (115) 1457
- Computed tomography;** Minimal tonic firing rate; Jaw movement; Single motor unit (115) 71
- Computer Systems;** Electroencephalography; Database; Alpha rhythm; Background activity; Data interpretation; Medical records systems; Quality management (115) 665

- Concentric needle EMG;** Simulation; Motor unit potential; Irregularity (115) 543
- Conductance;** Hyperhidrosis; Evaporimetry; Subjective evaluation of sweating; Botulinum toxin treatment (115) 1909
- Conduction block;** Evoked magnetic compound action field; Evoked compound action potential; Peripheral nerve; Sciatic nerve; Neuromagnetic recording; Biomagnetism (115) 2113
- Conduction block;** Motor evoked potentials; Triple stimulation technique; Temperature; Pyramidal tract (115) 2493
- Conduction block;** Magnetoneurography; Electroneurography; Magnetic field; Superconducting quantum interference device (SQUID); Compound action field; Peripheral nerve (115) 2667
- Conduction delay;** Ulnar neuropathy; Nerve conduction study; Inching test; Stimulator (115) 1021
- Conductivity tensor;** Finite element model; Subthalamic nucleus; Diffusion tensor (115) 589
- Congenital nystagmus;** Electroretinogram (ERG); Visual electrophysiology; Visual evoked potentials (VEP) (115) 461
- Connectivity;** Coherence; EEG; Motor control; Volume conduction; Time-lag (115) 2292
- Contingent negative variation;** Event-related desynchronization; Orienting reaction; Movement preparation; Childhood; Adolescence (115) 1836
- Contingent negative variation;** Event-related potentials; P3; NoGo-N2; Frontal selection potential; Lateralized readiness potential (115) 2001
- Continuous EEG monitoring;** Delayed cerebral ischemia; Subarachnoid hemorrhage; Cerebral aneurysm; Vasospasm (115) 2699
- Continuous performance test;** Neurocognitive development; Motor behavior; Event related potential; Interstimulus interval (115) 1104
- Contrast stimulation;** Oscillatory potentials; Gamma band response; Vision; Pattern VEP; Healthy volunteers; Factor analysis (115) 1669
- Control-signal gain;** EEG; MRCP; Perceived effort; Force production (115) 2391
- Convergence;** Exteroceptive suppression; Referred muscle pain; Trigeminal-cervical reflex (115) 1399
- Corpus callosum;** Transcranial magnetic stimulation; Handedness; Paired-pulse technique; Transcallosal inhibition; Corticospinal system; Gender (115) 1305
- Cortical dementia;** Neurophysiology; Cholinergic transmission; Diagnostic protocols (115) 2410
- Cortical electric stimulation;** Visual evoked potential; MT/V5; Motion perception; Subdural electrode; Magnetoencephalography (115) 2056
- Cortical excitability;** Flumazenil; Benzodiazepine; γ -Aminobutyric acid; Transcranial magnetic stimulation (115) 325
- Cortical excitability;** Transcranial direct current stimulation; Somatosensory evoked potential; Motor cortex; Neuroplasticity; Human (115) 456
- Cortical excitability;** Transcranial magnetic stimulation (115) 1063
- Cortical excitability;** Repetitive transcranial magnetic stimulation; Paired pulse stimulation (115) 1259
- Cortical excitability;** Intracortical facilitation; Intracortical inhibition; Motor evoked potentials; Silent period (115) 2530
- Cortical hyperexcitability;** Plasticity; Immobilization; Sensorimotor restriction; Transcranial magnetic stimulation; Motor system (115) 1264
- Cortical inhibition;** Electrophysiology; Excitability threshold; Motor evoked potential; Silent period (115) 956
- Cortical language dominance;** Functional transcranial Doppler sonography; Middle cerebral arteries (115) 154
- Cortical reactivity;** Motor cortex; Prefrontal cortex; Magnetic stimulation (115) 583
- Cortical reorganization;** Stroke; Transcranial magnetic stimulation; Motor outcome (115) 2144
- Cortical silent period;** Ataxia; Cerebellum; Motor evoked potential recruitment curve; Motor evoked potential; Transcranial magnetic stimulation (115) 348
- Cortical silent period;** Transcranial magnetic stimulation; Variability; Recruitment; Current flow direction (115) 1076
- Cortical topography;** First night effect; Sleep adaptation; Anteroposterior changes (115) 1178
- Corticobasal-ganglionic degeneration;** Transcranial magnetic stimulation; Progressive supranuclear palsy; Multiple system atrophy; Ipsilateral motor response (115) 1786
- Cortico-cortical connectivity;** Coherence; Interhemispheric functional correlation; Steady-state evoked potentials; Visual systems (115) 1409
- Corticospinal excitability;** Motor cortex; Plasticity; Repetitive transcranial magnetic stimulation (115) 1519
- Corticospinal projection;** Transcranial magnetic stimulation; Neuropharmacology; CNS active drugs; Motor cortical excitability; Motor evoked potential; Human (115) 1717
- Corticospinal system;** Transcranial magnetic stimulation; Handedness; Paired-pulse technique; Transcallosal inhibition; Corpus callosum; Gender (115) 1305
- Corticospinal tract;** Motor evoked potentials; Transcranial electrical stimulation; Scoliosis; Absolute refractory period; D wave (115) 1931

- Creutzfeldt-Jakob disease;** Non-convulsive status epilepticus; Electroencephalogram; Differential diagnosis; Benzodiazepine administration (115) 316
- Crossed-adductor response;** Spinal cord injury; Human; Prognosis; Tendon reflex; EMG; Acute (115) 2350
- CTS;** Carpal tunnel syndrome; Electrodiagnosis; Retrograde axonal atrophy; Motor conduction (115) 2783
- Current density distributions;** Minimum norm estimates; EEG; Simulation studies (115) 1657
- Current direction;** Motor evoked potentials; Transcranial magnetic stimulation; Motor cortex; Facial muscles; Coil orientation (115) 862
- Current flow direction;** Transcranial magnetic stimulation; Cortical silent period; Variability; Recruitment (115) 1076
- Current perception threshold;** Carpal tunnel syndrome; Progression; Clinical grade; Small fibers (115) 1921
- Cutaneous reflexes;** Human gait; Hereditary spastic paraparesis (HSP); Sural nerve (115) 1057
- Cutaneous silent period;** Exteroceptive suppression; A- δ fibers; Spinal cord; Muscle synergy (115) 1052
- Cutaneous silent period;** Exteroceptive suppression; A- δ fibers; Long loop reflex; Side-to-side difference; Gender; Normal values (115) 2123
- D wave;** Motor evoked potentials; Transcranial electrical stimulation; Scoliosis; Absolute refractory period; Corticospinal tract (115) 1931
- Data interpretation;** Electroencephalography; Database; Alpha rhythm; Background activity; Computer Systems; Medical records systems; Quality management (115) 665
- Database;** Electroencephalography; Alpha rhythm; Background activity; Computer Systems; Data interpretation; Medical records systems; Quality management (115) 665
- DC-currents;** Injury current; Magnetometry; SQUID; Skeletal muscle; Ischaemia (115) 1027
- Deceleration;** Acceleration; Brainhemorrhage; Traumatic; Diffuse axonal injury; Electrophysiology; Neurophysiology (115) 4
- Decomposition algorithms;** Spike triggered averaging; Motor unit number estimation (115) 564
- Deconvolution;** q-Sequence; QSD; Superposition; Quasi-periodic; Auditory brainstem response; Evoked-responses; Stimulus rate; Overlapped responses (115) 2754
- Deep brain stimulation;** Gating; Somatosensory evoked potential; Thalamus (115) 104
- Deep brain stimulation;** Thalamus; Somatosensory evoked potentials; Parkinson's disease; Pain (115) 424
- Delayed cerebral ischemia;** Subarachnoid hemorrhage; Cerebral aneurysm; Vasospasm; Continuous EEG monitoring (115) 2699
- Delayed choice reaction time;** Short term memory; Cerebral cortex; Electroencephalography; Theta rhythm; Alpha rhythm; Event related desynchronization/synchronization (115) 161
- Delta rhythm;** Mild Alzheimer's disease; Vascular dementia; Electroencephalography; Alpha rhythm (115) 299
- Demyelination;** Pupil response; Optic neuritis; Ganglion cell; Colour vision (115) 2650
- Dense array;** Electroencephalography; Electrolyte spreading (115) 710
- Dentate;** Microstimulation; Epilepsy; Penicillin; Tetanus toxin; Rat (115) 2502
- Depression;** Magnetic stimulation; Post-exercise facilitation; Facilitation; Fatigue; Multiple sclerosis (115) 2128
- Detrended fluctuation analysis;** Long-range temporal correlations; Spontaneous oscillations; Alpha and beta oscillations; Electroencephalography (115) 1896
- Development;** Children; EEG; Coherence; Gender (115) 2252
- Deviant alone;** Passive; Active; Attention; P100; N140 (115) 871
- Diabetes mellitus;** Dorsal sural nerve; Electroneuromyography; Polyneuropathy (115) 1452
- Diabetes;** Sway; Neuropathy; Stretch reflex; Group II fibre (115) 779
- Diabetic neuropathy;** Refractory period; Refractoriness; Sodium channel (115) 2525
- Diagnosis;** Alzheimer's disease; Electroencephalography; Linear; Nonlinear; Complexity; Clinical neurophysiology (115) 1490
- Diagnosis;** Restless legs; Polysomnography; Actigraphy; Periodic limb movements; Sleep; Electromyography; Clinical grading; Therapeutic evaluation; Suggested immobilization test (115) 1965
- Diagnostic protocols;** Cortical dementia; Neurophysiology; Cholinergic transmission (115) 2410
- Diaphragmatic action potential;** Phrenic nerve conduction; Phrenic nerve palsy; Infant; Cardiac surgery; Diaphragmatic plication (115) 1469
- Diaphragmatic plication;** Phrenic nerve conduction; Phrenic nerve palsy; Infant; Diaphragmatic action potential; Cardiac surgery (115) 1469
- Differential diagnosis;** Creutzfeldt-Jakob disease; Non-convulsive status epilepticus; Electroencephalogram; Benzodiazepine administration (115) 316
- Differential encoding;** Event-related potentials; Directed forgetting; Predictive validity; Word method; Inhibition (115) 369
- Diffusion-weighted imaging;** Transcranial direct current stimulation; Magnetic resonance tomography; Neuroplasticity; Human; Safety (115) 2419

- Diffuse axonal injury:** Acceleration; Brain hemorrhage; Traumatic; Deceleration; Electrophysiology; Neurophysiology (115) 4
- Diffusion tensor:** Finite element model; Subthalamic nucleus; Conductivity tensor (115) 589
- Digit representation:** Somatosensory evoked field; String players; Area 3b; High frequency oscillation; Fast spiking inhibitory interneuron; Training dependent reorganization (115) 435
- Dipole localization accuracy:** Equivalent current dipoles; Electroencephalo-graphic; Magneto-encephalo-graphic; Source reconstruction (115) 1442
- Dipole:** MEG; EEG; Outcome; Epilepsy (115) 2066
- Dipole modelling:** Temporal lobe epilepsy; Electroencephalogram; Averaging; Foramen ovale electrodes (115) 1423
- Dipole source analysis:** Somatosensory evoked potential; 600 Hz wavelet; Oscillatory somatosensory evoked potential; Median nerve; Ulnar nerve (115) 927
- Dipole source localization:** Electroencephalogram; Grand-average evoked potentials; Realistic head model (115) 2108
- Directed forgetting:** Event-related potentials; Predictive validity; Word method; Inhibition; Differential encoding (115) 369
- Discrepancy:** Independent component analysis; Blind source separation; Automatic detection (115) 1220
- Discrete wavelet analysis:** Auditory brain-stem response (115) 1129
- Distal conduction block:** Multifocal motor neuropathy with conduction block; Spinal accessory nerve; Intravenous immunoglobulin (115) 2323
- Distractibility:** Children; Major depression; Event-related potential; Mismatch negativity; P3a (115) 620
- Dog epilepsy:** Canine EEG; Canine normal EEG pattern (115) 477
- Donepezil:** Alzheimer's disease; Acetylcholinesterase inhibitor; Brain single photon emission computed tomography; Quantitative EEG; Statistical parametric mapping (115) 39
- Dopamine:** Restless legs syndrome; Periodic limb movements; Pathophysiology; Animal studies; Opioids; Neurophysiology (115) 1975
- Dorsal sural nerve:** Electroneuromyography; Diabetes mellitus; Polyneuropathy (115) 1452
- Dual task:** Resource; N140; P300; Attention (115) 2616
- Duration:** Gamma-band oscillations; 40 Hz; Exogenous; Size; Eccentricity (115) 1810
- Dyslexia:** Visual evoked potential (115) 90
- Dyslexia:** Principal component analysis; Ocular artefacts; Blinking; Event related potential; Single sweep analysis (115) 609
- Dyslexia:** EEG correlation index; Reading; Reading and writing impairment; Occupational outcome; Adolescents (115) 2584
- Dystonia:** Intrathecal baclofen; H reflex; Flexor reflex; Child (115) 774
- Dystonia:** Movement disorder; Parkinson's disease; Essential tremor; High-frequency stimulation; Thalamus; Basal ganglia (115) 1239
- Dystonia:** Basal ganglia; Thalamus; Neuronal activity; Microre-cording; Stereotactic surgery (115) 2542
- Early right anterior negativity:** Cochlear implant; Auditory processing; Music; Electroencephalogram; Mismatch negativity; N5 (115) 966
- Eccentricity:** Gamma-band oscillations; 40 Hz; Exogenous; Size; Duration (115) 1810
- ECTR:** Carpal tunnel syndrome; OCTR; Median nerve; Injury (115) 59
- EEG:** Traumatic brain injury; Frontal lobe; Bereitschaftspotential; Movement related potential; Supplementary motor area (115) 289
- EEG:** Finger independent control; Practice (115) 1033
- EEG:** Carotid surgery; Endarterectomy; Brain symmetry index (BSI) (115) 1189
- EEG:** Nonlinear analysis; Recurrence plot; Magnetic field; Phase space (115) 1195
- EEG:** Alzheimer's disease; Mild cognitive impairment; Working memory; Synchronization likelihood (115) 1332
- EEG:** Epilepsy; Photosensitivity; Succinic semialdehyde dehydrogenase (SSADH) deficiency; Heterozygosity; Absence (115) 1417
- EEG:** Electro-olfactogram; Evoked potential; Event-related potential (115) 1631
- EEG:** Minimum norm estimates; Simulation studies; Current density distributions (115) 1657
- EEG:** Wavelets; Beta rhythm; Action observation; Mirror neurons (115) 1760
- EEG:** Schizophrenia; Gamma; Event-related potential; Frontal lobe; Binding (115) 1863
- EEG:** Brain; Alcohol; Social drinking; Synchronisation; Theta; Gamma; Students (115) 2048
- EEG:** MEG; Dipole; Outcome; Epilepsy (115) 2066
- EEG:** Source localization; Neuroimaging (115) 2195
- EEG:** Children; Coherence; Gender; Development (115) 2252
- EEG:** Coherence; Connectivity; Motor control; Volume conduction; Time-lag (115) 2292
- EEG:** MRCP; Control-signal gain; Perceived effort; Force production (115) 2391
- EEG:** Neonate; Spectral analysis; Asphyxia (115) 2461

- EEG; Alpha phase; Auditory oddball task; Event-related potentials; Brain dynamics** (115) 2593
- EEG; Traumatic brain injury; Frontal lobe; Bereitschaftspotential; Movement-related potential; Recovery** (115) 2677
- EEG biofeedback; Neurofeedback; Beta1 activity; Sensorimotor rhythm; Attention; P300** (115) 131
- EEG biofeedback; Physiological self-regulation; Spectral EEG topography; Low beta; beta1; Alpha/theta** (115) 2452
- EEG correlation index; Visual discrimination; Visual perception disabilities; Occupational outcome; Adolescents** (115) 2574
- EEG correlation index; Reading; Dyslexia; Reading and writing impairment; Occupational outcome; Adolescents** (115) 2584
- EEG course; Sporadic Creutzfeldt-Jakob disease; Iatrogenic Creutzfeldt-Jakob disease; FIRDA; Periodic sharp wave complexes** (115) 2467
- EEG dipole source localisation; Epilepsy; Spike; Video EEG monitoring; Electrode** (115) 2738
- Effects of noise; Speech syllable response; Brainstem response; Auditory brainstem response; Frequency-following response** (115) 2021
- Efficiency; Transcranial magnetic stimulation; Coil design; Electric field properties; Focality** (115) 1697
- Electric field properties; Transcranial magnetic stimulation; Coil design; Focality; Efficiency** (115) 1697
- Electrical; Galvanic; Vestibular evoked myogenic potential; Body sway; Labyrinth; Posturography** (115) 807
- Electrical stimulation; Afterdischarge; Focal epilepsy** (115) 982
- Electrical stimulation; Movement disorders; Neural prosthesis; Subthalamic nucleus; Thalamus** (115) 2431
- Electrocorticography; Attention; Laser-evoked potential; Event-related desynchronization; Intensity; Pain** (115) 1641
- Electrode; Electroencephalogram; Epilepsy; Safety; Magnetic resonance imaging** (115) 2175
- Electrode; Epilepsy; Spike; EEG dipole source localisation; Video EEG monitoring** (115) 2738
- Electrodermal activity; Arousal; Theta/beta ratio; Attention deficit/hyperactivity disorder** (115) 402
- Electrodiagnosis; Lower brachial plexus; Medial antebrachial cutaneous nerve; Nerve conduction; Thoracic outlet syndrome; Neurogenic thoracic outlet syndrome; Brachial plexus lesion; Traumatic brachial plexus lesion; Neoplastic brachial plexus lesion** (115) 2316
- Electrodiagnosis; Carpal tunnel syndrome; CTS; Retrograde axonal atrophy; Motor conduction** (115) 2783
- Electroencephalogram; Event-related desynchronisation; Event-related synchronisation; Sequential movements; Human** (115) 124
- Electroencephalogram; Maastricht Cerebral Monitor; Hypoxemia; Hypoxia; Near infrared spectroscopy; Newborn; Piglet** (115) 282
- Electroencephalogram; Creutzfeldt-Jakob disease; Non-convulsive status epilepticus; Differential diagnosis; Benzodiazepine administration** (115) 316
- Electroencephalogram; Phase synchronization; Auditory evoked potential; Schizophrenia; Gating; Suppression** (115) 523
- Electroencephalogram; Magnetoencephalography; Pain; C fiber; Attention** (115) 636
- Electroencephalogram; N400-like components; Priming; Multiple dipole model; Face processing** (115) 880
- Electroencephalogram; Cochlear implant; Auditory processing; Music; Early right anterior negativity; Mismatch negativity; N5** (115) 966
- Electroencephalogram; Temporal lobe epilepsy; Epilepsy surgery; Outcome** (115) 1212
- Electroencephalogram; Temporal lobe epilepsy; Averaging; Foramen ovale electrodes; Dipole modelling** (115) 1423
- Electroencephalogram; Grand-average evoked potentials; Dipole source localization; Realistic head model** (115) 2108
- Electroencephalogram; Electrode; Epilepsy; Safety; Magnetic resonance imaging** (115) 2175
- Electroencephalogram patterns; Angelman syndrome; Sleep; Polysomnography** (115) 938
- Electroencephalograph detection; Magnetoencephalographic spikes; Landau-Kleffner; Epilepsy** (115) 2041
- Electro-encephalo-graphic; Equivalent current dipoles; Magneto-encephalo-graphic; Source reconstruction; Dipole localization accuracy** (115) 1442
- Electroencephalographic; Peak alpha frequency; Cognitive preparedness; Traumatic brain injury; Working memory; Trait; State; Resting baseline** (115) 887
- Electroencephalography; Short term memory; Delayed choice reaction time; Cerebral cortex; Theta rhythm; Alpha rhythm; Event related desynchronization/synchronization** (115) 161
- Electroencephalography; Mild Alzheimer's disease; Vascular dementia; Alpha rhythm; Delta rhythm** (115) 299
- Electroencephalography; Magnetoencephalography; Newborn; Sleep stage; Somatosensory evoked magnetic field; Somatosensory evoked potential** (115) 448
- Electroencephalography; Database; Alpha rhythm; Background activity; Computer Systems; Data interpretation; Medical records systems; Quality management** (115) 665
- Electroencephalography; Adaptive classification; Lorazepam; Magnetoencephalography; Microstructure; Short-term spectral patterns** (115) 674

- Electroencephalography**; Electrolyte spreading; Dense array (115) 710
- Electroencephalography**; Mu rhythm; Sensorimotor cortex; Rehabilitation; Brain-computer interface; Common spatial subspace decomposition (115) 745
- Electroencephalography**; N400; Semantic; Independent component analysis; Language (115) 1349
- Electroencephalography**; Autism; Pervasive developmental disorder; Rapid eye movement sleep; Visual cortex (115) 1368
- Electroencephalography**; Generalised epilepsy (115) 1436
- Electroencephalography**; Alzheimer's disease; Linear; Nonlinear; Complexity; Diagnosis; Clinical neurophysiology (115) 1490
- Electroencephalography**; Alpha; Laterality; Hemispheric specialization (115) 1575
- Electroencephalography**; Long-range temporal correlations; Spontaneous oscillations; Alpha and beta oscillations; Detrended fluctuation analysis (115) 1896
- Electroencephalography**; Functional magnetic resonance imaging; Event-related potentials; P300; Artifacts (115) 2181
- Electroencephalography**; Seizure detection; Algorithm; Neural network; Matching pursuit; Clustering (115) 2280
- Electroencephalography (EEG)**; Motor activity-related cortical potential (MRCP); Negative potential (NP); Electromyography (EMG); Voluntary muscle contraction; Muscle fatigue; Muscle strength (115) 2372
- Electroencephalography (EEG)**; Brain-computer interface (BCI); Motor imagery; Event-related desynchronization (ERD); Spatial correlation; Time-frequency weighting (115) 2744
- Electrographic status epilepticus**; Focus size; Hippocampus; Humans (115) 2274
- Electrolyte spreading**; Electroencephalography; Dense array (115) 710
- Electromagnetic field**; Mobile phone; Event-related potential; Performance; Pilot study (115) 171
- Electromyogram**; Stroke; Motor unit; F-wave; Trans-synaptic degeneration (115) 97
- Electromyogram**; Spinal cord injury; Human; Recovery; Voluntary contraction (115) 1748
- Electromyography**; Posture; Anticipatory postural adjustment; Human (115) 797
- Electromyography**; Group II; H-reflex; Spasticity; Spinal reflex (115) 1313
- Electromyography**; Restless legs; Diagnosis; Polysomnography; Actigraphy; Periodic limb movements; Sleep; Clinical grading; Therapeutic evaluation; Suggested immobilization test (115) 1965
- Electromyography (EMG)**; Motor activity-related cortical potential (MRCP); Negative potential (NP); Electroencephalography (EEG); Voluntary muscle contraction; Muscle fatigue; Muscle strength (115) 2372
- Electromyography classification**; Multivariate autoregressive model; Principal component analysis (115) 1276
- Electroneuromyography**; Dorsal sural nerve; Diabetes mellitus; Polyneuropathy (115) 1452

- Electro-olfactogram**; EEG; Evoked potential; Event-related potential (115) 1631
- Electrophysiology**; Acceleration; Brainhemorrhage; Traumatic; Deceleration; Diffuse axonal injury; Neurophysiology (115) 4
- Electrophysiology**; Cortical inhibition; Excitability threshold; Motor evoked potential; Silent period (115) 956
- Electrophysiology**; Carpal tunnel syndrome; Therapy; Steroids; Clinical follow-up (115) 1464
- Electrophysiology**; Stochastic resonance; Sensory information processing; Revue of application; Vision; Tactile; Hearing; Perception; Psychophysics; Hearing prostheses; Animal behavior; Modeling (115) 267
- Electroretinogram (ERG)**; Congenital nystagmus; Visual electrophysiology; Visual evoked potentials (VEP) (115) 461
- EMG**; Spinal cord injury; Human; Prognosis; Tendon reflex; Acute; Crossed-adductor response (115) 2350
- Endarterectomy**; EEG; Carotid surgery; Brain symmetry index (BSI) (115) 1189
- Entrapment**; Carpal tunnel syndrome; Chronic inflammatory demyelinating polyneuropathy; Autoimmunity (115) 1140
- Entrapment neuropathy**; Carpal tunnel syndrome; Median nerve; Palmar cutaneous branch; Nerve conduction study; Orthodromic stimulation (115) 2514
- Environmental sounds**; Novelty P3; Oddball; Event-related brain potential (115) 1359
- Epicortical recording**; Multisensory integration; Multimodal sensory area; Temporo-parietal junction; Inferior parietal lobule; Somatosensory evoked potential (115) 1145
- Epidural cortex stimulation**; Transcranial brain stimulation; Motor cortex; Transcranial magnetic stimulation (115) 834
- Epilepsy**; Interictal spike; Automatic detection; Independent component analysis; RAP-MUSIC (115) 508

- Epilepsy**; Sleep; Background EEG; Vagus nerve stimulation; Slow wave activity; Interictal epileptiform activity (115) 658
- Epilepsy**; Nocturnal frontal lobe epilepsy; Frequency band synchronization (115) 1202
- Epilepsy**; EEG; Photosensitivity; Succinic semialdehyde dehydrogenase (SSADH) deficiency; Heterozygosity; Absence (115) 1417
- Epilepsy**; Magnetoencephalographic spikes; Electroencephalograph detection; Landau-Kleffner (115) 2041
- Epilepsy**; MEG; EEG; Dipole; Outcome (115) 2066
- Epilepsy**; Electroencephalogram; Electrode; Safety; Magnetic resonance imaging (115) 2175
- Epilepsy**; Microstimulation; Dentate; Penicillin; Tetanus toxin; Rat (115) 2502
- Epilepsy**; Antiepileptic drugs; Cognitive functions; Lateral superior olive; Medial superior olive; Audition (115) 2711
- Epilepsy**; Transcranial magnetic stimulation; Seizure; Safety; Single-pulse; Paired-pulse (115) 2728
- Epilepsy**; Spike; EEG dipole source localisation; Video EEG monitoring; Electrode (115) 2738
- Epilepsy investigations**; Somatosensory evoked potentials; SI area; Intracortical potentials; High-frequency evoked responses; Epilepsy surgery (115) 647
- Epilepsy surgery**; Somatosensory evoked potentials; SI area; Intracortical potentials; High-frequency evoked responses; Epilepsy investigations (115) 647
- Epilepsy surgery**; Heart rate; Temporal lobe epilepsy; Presurgical evaluation; Video EEG (115) 1169
- Epilepsy surgery**; Temporal lobe epilepsy; Electroencephalogram; Outcome (115) 1212
- Equivalent current dipole**; N100m response; Auditory evoked fields; Tonotopic organization; Short-term plastic change; Selective attention; Tonotopic map (115) 1592
- Equivalent current dipoles**; Electro-encephalo-graphic; Magneto-encephalo-graphic; Source reconstruction; Dipole localization accuracy (115) 1442
- ERPs**; Reaction time; Precueing; Supplementary motor areas; Primary motor areas; Laplacians (115) 2164
- ERPs**; Iron deficiency; Children; Psychomotor development; P300; Attention (115) 2259
- Error**; Ne/ERN; Supervisory system; Reafferences; Laplacian (115) 2014
- Error correction**; Transcranial magnetic stimulation; Error related negativity; Prefrontal cortex; Error detection (115) 145
- Error detection**; Transcranial magnetic stimulation; Error related negativity; Prefrontal cortex; Error correction (115) 145
- Error related negativity**; Transcranial magnetic stimulation; Prefrontal cortex; Error detection; Error correction (115) 145
- Error-related negativity**; Anterior cingulate cortex; Supplementary motor area; Motor potentials; Event-related potentials; Theta; Oscillations; Phase resetting (115) 1821
- Essential tremor**; Movement disorder; Parkinson's disease; Dystonia; High-frequency stimulation; Thalamus; Basal ganglia (115) 1239
- Ethics**; Institutional review board; Minimal risk; Neurophysiology; Transcranial magnetic stimulation; Children (115) 1730
- Evaporimetry**; Hyperhidrosis; Conductance; Subjective evaluation of sweating; Botulinum toxin treatment (115) 1909
- Event related brain potential**; Selective attention; Somatosensory; Spatial cognition (115) 596
- Event related desynchronization/synchronization**; Short term memory; Delayed choice reaction time; Cerebral cortex; Electroencephalography; Theta rhythm; Alpha rhythm (115) 161
- Event related potential**; Mismatch negativity; Central auditory processing; Sound discrimination (115) 140
- Event related potential**; Amyotrophic lateral sclerosis; Magnetoencephalography; Auditory processing; Mismatch negativity; Glutamate (115) 309
- Event related potential**; Readiness potential; Motor learning; Training; Habituation; Attention (115) 378
- Event related potential**; Principal component analysis; Ocular artefacts; Blinking; Dyslexia; Single sweep analysis (115) 609
- Event related potential**; Non REM sleep; Aging (115) 732
- Event related potential**; Visual word recognition; Lexical decision; Lexical access; Word length; Word frequency (115) 1090
- Event related potential**; Continuous performance test; Neurocognitive development; Motor behavior; Interstimulus interval (115) 1104
- Event related potentials**; Machado-Joseph Disease; Sensory gating; P50; Spinocerebellar ataxias; Polyglutamine diseases (115) 2231
- Event-related brain potential**; Novelty P3; Oddball; Environmental sounds (115) 1359
- Event-related brain potentials**; Attention-deficit hyperactivity disorder; Visual selective attention; Source localization; Frontal selection positivity; N2b (115) 1537
- Event-related desynchronisation**; Event-related synchronisation; Sequential movements; Human; Electroencephalogram (115) 124
- Event-related desynchronization**; Attention; Laser-evoked potential; Electrooculography; Intensity; Pain (115) 1641

- Event-related desynchronization;** Contingent negative variation; Orienting reaction; Movement preparation; Childhood; Adolescence (115) 1836
- Event-related desynchronization (ERD);** Brain-computer interface (BCI); Electroencephalography (EEG); Motor imagery; Spatial correlation; Time-frequency weighting (115) 2744
- Event-related potential;** Mobile phone; Electromagnetic field; Performance; Pilot study (115) 171
- Event-related potential;** Children; Major depression; Distractibility; Mismatch negativity; P3a (115) 620
- Event-related potential;** Electro-olfactogram; EEG; Evoked potential (115) 1631
- Event-related potential;** Schizophrenia; Gamma; EEG; Frontal lobe; Binding (115) 1863
- Event-related potential repetition effect;** Implicit memory; Explicit memory; General anesthetics (115) 2403
- Event-related potentials;** Visuospatial attention; Central cues; Peripheral cues; P1 (115) 199
- Event-related potentials;** Directed forgetting; Predictive validity; Word method; Inhibition; Differential encoding (115) 369
- Event-related potentials;** Alcoholism heritability; P300; Tobacco; Smoking (115) 1374
- Event-related potentials;** Button-press; Motor-related potentials; P3(00); Scalp topography (115) 1550
- Event-related potentials;** Anterior cingulate cortex; Supplementary motor area; Error-related negativity; Motor potentials; Theta; Oscillations; Phase resetting (115) 1821
- Event-related potentials;** Two-point discrimination; Attention; Judgment; P3a; P3b (115) 1875
- Event-related potentials;** P3; NoGo-N2; Frontal selection potential; Lateralized readiness potential; Contingent negative variation (115) 2001
- Event-related potentials;** Electroencephalography; Functional magnetic resonance imaging; P300; Artifacts (115) 2181
- Event-related potentials;** EEG; Alpha phase; Auditory oddball task; Brain dynamics (115) 2593
- Event-related synchronisation;** Event-related desynchronisation; Sequential movements; Human; Electroencephalogram (115) 124
- Evoked compound action potential;** Evoked magnetic compound action field; Conduction block; Peripheral nerve; Sciatic nerve; Neuromagnetic recording; Biomagnetism (115) 2113
- Evoked magnetic compound action field;** Evoked compound action potential; Conduction block; Peripheral nerve; Sciatic nerve; Neuromagnetic recording; Biomagnetism (115) 2113
- Evoked potential;** Electro-olfactogram; EEG; Event-related potential (115) 1631
- Evoked potential;** Tuberculosis; Pott's paraplegia; Spinal cord; MRI; MEP; SEP; Prognosis (115) 2267
- Evoked potentials;** P50; Schizophrenia; Antipsychotics; Clozapine (115) 396
- Evoked potentials;** Streaming; F-complex; Auditory cortex (115) 1083
- Evoked potentials;** Hearing; Auditory function; Brain-stem auditory evoked response; Neonate; Asphyxia; Hypoxia-ischaemia (115) 1605
- Evoked potentials;** Laser stimulation; Skin temperature; Pain perception (115) 2629
- Evoked-responses;** q-Sequence; Deconvolution; QSD; Superposition; Quasi-periodic; Auditory brainstem response; Stimulus rate; Overlapped responses (115) 2754
- Excitability;** Motor cortex; Plasticity; Repetitive transcranial magnetic stimulation; Swallowing (115) 1044
- Excitability;** Magnetoencephalography; Motor cortex; Pharynx; Transcranial magnetic stimulation; Somatosensory cortex; Swallowing (115) 2382
- Excitability threshold;** Cortical inhibition; Electrophysiology; Motor evoked potential; Silent period (115) 956
- Excitotoxicity;** Repetitive transcranial magnetic stimulation; Amyotrophic lateral sclerosis; Glutamate (115) 1479
- Exercise;** Stroke; Rehabilitation; Trunk (115) 790
- Exogenous;** Gamma-band oscillations; 40 Hz; Size; Duration; Eccentricity (115) 1810
- Experimental muscle pain;** Twitch force; Spike triggered averaging; Single motor unit; Masseter muscle (115) 76
- Experimental muscle pain;** Fatigue; Motor unit (115) 1767
- Experimental neuropathy;** Sensory nerve conduction; Plantar nerve; Rat nerve conduction (115) 1677
- Explicit memory;** Implicit memory; Event-related potential repetition effect; General anesthetics (115) 2403
- Extensor digitorum brevis motor units;** Adapted multiple point stimulation method; Amyotrophic lateral sclerosis; Peripheral neuropathies (115) 557
- Extensor digitorum communis;** Motor mapping; Reliability; Center of gravity (115) 1740
- External anal sphincter muscle;** Motor unit potentials; Needle electromyography; Sample size; Sensitivity (115) 1683
- Exteroceptive suppression;** Cutaneous silent period; A- δ fibers; Spinal cord; Muscle synergy (115) 1052
- Exteroceptive suppression;** Convergence; Referred muscle pain; Trigeminal-cervical reflex (115) 1399

- Exteroceptive suppression;** Cutaneous silent period; A- δ fibers; Long loop reflex; Side-to-side difference; Gender; Normal values (115) 2123
- Eye gaze;** Visual-spatial; Selective attention; Visual processing (115) 1161
- Eye movement;** Magnetoencephalography; Mouth movement; Motion perception; MT/V5 (115) 1559
- F waves;** Ulnar nerve; Tibial nerve; Nerve conduction studies; Late responses; F-wave latency; F-wave velocity (115) 2336
- Face processing;** N400-like components; Priming; Multiple dipole model; Electroencephalogram (115) 880
- Facial muscle;** Transcranial magnetic stimulation; Motor cortex; Frontal cortex; Blink reflex (115) 341
- Facial muscles;** Motor evoked potentials; Transcranial magnetic stimulation; Motor cortex; Coil orientation; Current direction (115) 862
- Facial nerve;** Accessory nerve; Hypoglossal nerve; Magnetic stimulation; Hereditary motor and sensory neuropathy (115) 1689
- Facilitation;** Magnetic stimulation; Post-exercise facilitation; Depression; Fatigue; Multiple sclerosis (115) 2128
- Factor analysis;** Oscillatory potentials; Gamma band response; Vision; Pattern VEP; Contrast stimulation; Healthy volunteers (115) 1669
- Far-field potential;** Somatosensory evoked potentials; Median nerve; N10; Amyotrophic lateral sclerosis (115) 2645
- Fasciculation;** Ultrasound; Median nerve; Muscle; Carpal tunnel syndrome; Imaging; Peripheral nerve; Nerve motion; Median artery (115) 495
- Fast spiking inhibitory interneuron;** Somatosensory evoked field; String players; Area 3b; Digit representation; High frequency oscillation; Training dependent reorganization (115) 435
- Fatigue;** Experimental muscle pain; Motor unit (115) 1767
- Fatigue;** Magnetic stimulation; Post-exercise facilitation; Facilitation; Depression; Multiple sclerosis (115) 2128
- Fatigue;** Transcranial magnetic stimulation; Multiple sclerosis; Voluntary contraction (115) 2364
- F-complex;** Streaming; Evoked potentials; Auditory cortex (115) 1083
- Feature extraction;** Spatio-temporal decomposition; Artefact; Principal component analysis; Cluster analysis; Blind separation; Focal activity; Reconstruction (115) 227
- Feedback control;** Grip force; Feedforward control; Prediction (115) 839
- Feedforward control;** Grip force; Prediction; Feedback control (115) 839
- Fiducial localization error;** MEG-MRI co-registration; Bite-bar; Target registration error; Monte Carlo simulation (115) 691
- Finger independent control;** Practice; EEG (115) 1033
- Finite element model;** Subthalamic nucleus; Diffusion tensor; Conductivity tensor (115) 589
- FIRDA;** Sporadic Creutzfeldt-Jakob disease; Iatrogenic Creutzfeldt-Jakob disease; EEG course; Periodic sharp wave complexes (115) 2467
- First night effect;** Sleep adaptation; Cortical topography; Antero-posterior changes (115) 1178
- Flexor reflex;** Dystonia; Intrathecal baclofen; H reflex; Child (115) 774
- Flicker;** Fourier analysis; Optic glioma; Optic pathways; Visual evoked potentials (115) 217
- Flumazenil;** Benzodiazepine; γ -Aminobutyric acid; Cortical excitability; Transcranial magnetic stimulation (115) 325
- Fluoxetine;** Transcranial magnetic stimulation; Primary motor cortex; Plasticity; Serotonin (115) 2157
- Focal activity;** Spatio-temporal decomposition; Feature extraction; Artefact; Principal component analysis; Cluster analysis; Blind separation; Reconstruction (115) 227
- Focal cortical dysplasia;** Clinical neurophysiology; Pediatric epilepsy surgery; Quantitative ictal intracranial electroencephalography; Tuberous sclerosis complex (115) 2718
- Focal epilepsy;** Afterdischarge; Electrical stimulation (115) 982
- Focality;** Transcranial magnetic stimulation; Coil design; Electric field properties; Efficiency (115) 1697
- Focus size;** Electrographic status epilepticus; Hippocampus; Humans (115) 2274
- Foramen ovale electrodes;** Temporal lobe epilepsy; Electroencephalogram; Averaging; Dipole modelling (115) 1423
- Force production;** EEG; MRCP; Control-signal gain; Perceived effort (115) 2391
- Forearm;** Primary somatosensory cortex; Tactile interference; Thumb; Little finger; Area 3b; Magnetoencephalography (MEG) (115) 2638
- Fourier analysis;** Flicker; Optic glioma; Optic pathways; Visual evoked potentials (115) 217
- Frequency band synchronization;** Epilepsy; Nocturnal frontal lobe epilepsy (115) 1202
- Frequency-following response;** Speech syllable response; Brainstem response; Auditory brainstem response; Effects of noise (115) 2021
- Frontal cortex;** Transcranial magnetic stimulation; Motor cortex; Facial muscle; Blink reflex (115) 341

- Frontal lobe;** Traumatic brain injury; EEG; Bereitschaftspotential; Movement related potential; Supplementary motor area (115) 289
- Frontal lobe;** Schizophrenia; Gamma; EEG; Event-related potential; Binding (115) 1863
- Frontal lobe;** Traumatic brain injury; EEG; Bereitschaftspotential; Movement-related potential; Recovery (115) 2677
- Frontal selection positivity;** Attention-deficit hyperactivity disorder; Event-related brain potentials; Visual selective attention; Source localization; N2b (115) 1537
- Frontal selection potential;** Event-related potentials; P3; NoGo-N2; Lateralized readiness potential; Contingent negative variation (115) 2001
- Functional clustering;** Multichannel EEG; Total sleep deprivation (115) 2825
- Functional magnetic resonance imaging;** Electroencephalography; Event-related potentials; P300; Artifacts (115) 2181
- Functional transcranial Doppler sonography;** Cortical language dominance; Middle cerebral arteries (115) 154
- F-wave;** Stroke; Motor unit; Electromyogram; Trans-synaptic degeneration (115) 97
- F-wave latency;** Ulnar nerve; Tibial nerve; F waves; Nerve conduction studies; Late responses; F-wave velocity (115) 2336
- F-wave velocity;** Ulnar nerve; Tibial nerve; F waves; Nerve conduction studies; Late responses; F-wave latency (115) 2336
- Gabor expansion;** Quadratic phase coupling; Phase-locking; Neonatal EEG; Trace alternant; Time-variant bispectral analysis (115) 2308
- Galvanic;** Electrical; Vestibular evoked myogenic potential; Body sway; Labyrinth; Posturography (115) 807
- Gamma;** Schizophrenia; EEG; Event-related potential; Frontal lobe; Binding (115) 1863
- Gamma;** Brain; Alcohol; EEG; Social drinking; Synchronisation; Theta; Students (115) 2048
- Gamma band response;** Oscillatory potentials; Vision; Pattern VEP; Contrast stimulation; Healthy volunteers; Factor analysis (115) 1669
- gamma EEG oscillations;** Analytic amplitude; Hilbert transform; Information; Order parameter; Stability; Synchrony (115) 2077
- Gamma-aminobutyric acid;** Somatosensory evoked potentials; High-frequency oscillations; Migraine; Inhibitory interneurons; Sodium valproate (115) 1857
- Gamma-band oscillations;** 40 Hz; Exogenous; Size; Duration; Eccentricity (115) 1810
- Ganglion cell;** Pupil response; Optic neuritis; Demyelination; Colour vision (115) 2650
- Gating;** Somatosensory evoked potential; Thalamus; Deep brain stimulation (115) 104
- Gating;** Phase synchronization; Auditory evoked potential; Schizophrenia; Suppression; Electroencephalogram (115) 523
- Gaze direction;** Somatosensory evoked potentials; Movement related cortical potentials; Spatial attention (115) 29
- Gender;** Transcranial magnetic stimulation; Handedness; Paired-pulse technique; Transcallosal inhibition; Corpus callosum; Corticospinal system (115) 1305
- Gender;** Cutaneous silent period; Exteroceptive suppression; A- δ fibers; Long loop reflex; Side-to-side difference; Normal values (115) 2123
- Gender;** Children; EEG; Coherence; Development (115) 2252
- General anesthetics;** Implicit memory; Explicit memory; Event-related potential repetition effect (115) 2403
- Generalised epilepsy;** Electroencephalography (115) 1436
- Glutamate;** Amyotrophic lateral sclerosis; Magnetoencephalography; Auditory processing; Event related potential; Mismatch negativity (115) 309
- Glutamate;** Repetitive transcranial magnetic stimulation; Amyotrophic lateral sclerosis; Excitotoxicity (115) 1479
- Go/NoGo;** Attention-deficit/hyperactivity disorder; N2; Inhibition (115) 1320
- Goose bumps;** Pilomotor seizure; Acute repetitive seizures (115) 2511
- Grand-average evoked potentials;** Electroencephalogram; Dipole source localization; Realistic head model (115) 2108
- Grip force;** Feedforward control; Prediction; Feedback control (115) 839
- Group II;** Electromyography; H-reflex; Spasticity; Spinal reflex (115) 1313
- Group II fibre;** Sway; Diabetes; Neuropathy; Stretch reflex (115) 779
- Guillain-Barre syndrome;** Acute inflammatory demyelinating polyradiculoneuropathy; Neurophysiology (115) 2329
- H reflex;** Dystonia; Intrathecal baclofen; Flexor reflex; Child (115) 774
- Habituation;** Event related potential; Readiness potential; Motor learning; Training; Attention (115) 378
- Handedness;** Transcranial magnetic stimulation; Paired-pulse technique; Transcallosal inhibition; Corpus callosum; Corticospinal system; Gender (115) 1305
- Healthy volunteers;** Oscillatory potentials; Gamma band response; Vision; Pattern VEP; Contrast stimulation; Factor analysis (115) 1669

- Hearing:** Stochastic resonance; Sensory information processing; Revue of application; Vision; Tactile; Perception; Psychophysics; Electrophysiology; Hearing prostheses; Animal behavior; Modeling (115) 267
- Hearing:** Auditory function; Brain-stem auditory evoked response; Evoked potentials; Neonate; Asphyxia; Hypoxia-ischaemia (115) 1605
- Hearing prostheses:** Stochastic resonance; Sensory information processing; Revue of application; Vision; Tactile; Hearing; Perception; Psychophysics; Electrophysiology; Animal behavior; Modeling (115) 267
- Heart:** Autonomic; Cardiac; Sleep; Sympathetic; Parasympathetic (115) 19
- Heart rate:** Temporal lobe epilepsy; Presurgical evaluation; Video EEG; Epilepsy surgery (115) 1169
- Heart rate:** Multiple sclerosis; Blood pressure; Autonomic nervous system; Magnetic resonance imaging (115) 1473
- Heart rate:** Periodic leg movement; Wakefulness; Sleep; Sleep stage; Spectral electroencephalographic analysis (115) 2236
- Heart rate:** Arousal; Awakening; Sleep deprivation; Sleep state; Autonomic system (115) 2442
- Heart rate variability:** Sinus arrests; Sleep; Autonomic nervous system (115) 946
- Heart rate variability:** Synchronization likelihood; Non-linear analysis; Sleep (115) 2031
- Hemispheric asymmetry:** Short-interval intracortical inhibition; Motor evoked potential; Transcranial magnetic stimulation; Motor cortex (115) 330
- Hemispheric specialization:** Alpha; Laterality; Electroencephalography (115) 1575
- Hereditary motor and sensory neuropathy:** Facial nerve; Accessory nerve; Hypoglossal nerve; Magnetic stimulation (115) 1689
- Hereditary spastic paraparesis (HSP):** Cutaneous reflexes; Human gait; Sural nerve (115) 1057
- Heterozygosity:** Epilepsy; EEG; Photosensitivity; Succinic semialdehyde dehydrogenase (SSADH) deficiency; Absence (115) 1417
- Hierarchical regression analysis:** Cochlear implant; Compound action potential; Psychophysical levels; Neural response telemetry; Jack-knife validation (115) 2811
- High-frequency evoked responses:** Somatosensory evoked potentials; SI area; Intracortical potentials; Epilepsy investigations; Epilepsy surgery (115) 647
- High frequency oscillation:** Somatosensory evoked field; String players; Area 3b; Digit representation; Fast spiking inhibitory interneuron; Training dependent reorganization (115) 435
- High frequency oscillations:** Modafinil; Somatosensory evoked potentials; Brain-stem; Sleep (115) 919
- High-frequency oscillations:** Somatosensory evoked potentials; 600 Hz; Somatosensory system; Arousal (115) 1392
- High-frequency oscillations:** Cervical dystonia; Interneurons; N20 potential; Somatosensory evoked potentials (115) 1624
- High-frequency oscillations:** Somatosensory evoked potentials; Migraine; Inhibitory interneurons; Sodium valproate; Gamma-aminobutyric acid (115) 1857
- High-frequency stimulation:** Movement disorder; Parkinson's disease; Essential tremor; Dystonia; Thalamus; Basal ganglia (115) 1239
- Hilbert transform:** Analytic amplitude; gamma EEG oscillations; Information; Order parameter; Stability; Synchrony (115) 2077
- Hippocampus:** Electrographic status epilepticus; Focus size; Humans (115) 2274
- Horizontal gaze palsy:** Uncrossed sensorimotor pathways; Somatosensory evoked potentials; Motor evoked potentials; Intraoperative monitoring; Brain-stem malformation; Scoliosis (115) 576
- Hot spot:** Movement threshold; Transcranial magnetic stimulation; Motor cortex; Human (115) 812
- H-reflex:** Somatosensory evoked potential; Transcranial magnetic stimulation; Locomotor; Plasticity (115) 858
- H-reflex:** Electromyography; Group II; Spasticity; Spinal reflex (115) 1313
- H-reflex:** Load information; Underwater experiment; Standing posture (115) 1296
- Human:** Event-related desynchronisation; Event-related synchronisation; Sequential movements; Electroencephalogram (115) 124
- Human:** Nogo potentials; Modality; N140; P300; Response inhibition (115) 361
- Human:** Transcranial direct current stimulation; Somatosensory evoked potential; Motor cortex; Neuroplasticity; Cortical excitability (115) 456
- Human:** Steady state evoked potential; Oscillatory activity; Auditory evoked potential (115) 699
- Human:** Posture; Anticipatory postural adjustment; Electromyography (115) 797
- Human:** Movement threshold; Hot spot; Transcranial magnetic stimulation; Motor cortex (115) 812
- Human:** Cerebellum; Associative learning; Limb flexion response (115) 849
- Human:** Transcranial magnetic stimulation; Neuropharmacology; CNS active drugs; Motor cortical excitability; Motor evoked potential; Corticospinal projection (115) 1717

- Human**; Electromyogram; Spinal cord injury; Recovery; Voluntary contraction (115) 1748
- Human**; Spinal cord injury; Prognosis; Tendon reflex; EMG; Acute; Crossed-adductor response (115) 2350
- Human**; Transcranial direct current stimulation; Magnetic resonance tomography; Diffusion-weighted imaging; Neuroplasticity; Safety (115) 2419
- Human**; Visual cortex; Nystagmus; VEP; Pattern-onset; Pattern-reversal (115) 2659
- Human**; Withdrawal reflex; Receptive field; Spinal cord injury (115) 2798
- Humans**; Electrographic status epilepticus; Focus size; Hippocampus (115) 2274
- Human experimental muscle pain**; Stretch reflex; Trigemino-cervical reflexes; Trigeminal pain mechanisms (115) 1288
- Human gait**; Cutaneous reflexes; Hereditary spastic paraparesis (HSP); Sural nerve (115) 1057
- Human immunodeficiency virus**; P3a; P3b; Viral load; Antiretroviral therapy (115) 1583
- Human motor cortex**; Transcranial magnetic stimulation; Transcranial electrical stimulation (115) 255
- Huntington's disease**; Blink reflex; Blink reflex excitability; Prepulse inhibition; Parkinson's disease (115) 1527
- Hyperhidrosis**; Evaporimetry; Conductance; Subjective evaluation of sweating; Botulinum toxin treatment (115) 1909
- Hypoglossal nerve**; Facial nerve; Accessory nerve; Magnetic stimulation; Hereditary motor and sensory neuropathy (115) 1689
- Hypothenar**; Transcranial magnetic stimulation; Thenar; Collision Technique; Motor-evoked potentials (115) 2558
- Hypoxemia**; Maastricht Cerebral Monitor; Electroencephalogram; Hypoxia; Near infrared spectroscopy; Newborn; Piglet (115) 282
- Hypoxia**; Maastricht Cerebral Monitor; Electroencephalogram; Hypoxemia; Near infrared spectroscopy; Newborn; Piglet (115) 282
- Hypoxia**; Periodic breathing; Neonatal EEG; Polysomnography; Respiratory distress syndrome (115) 2247
- Hypoxia-ischaemia**; Hearing; Auditory function; Brain-stem auditory evoked response; Evoked potentials; Neonate; Asphyxia (115) 1605
- 40 Hz**; Gamma-band oscillations; Exogenous; Size; Duration; Eccentricity (115) 1810
- 600 Hz**; Somatosensory evoked potentials; High-frequency oscillations; Somatosensory system; Arousal (115) 1392
- 600 Hz wavelet**; Somatosensory evoked potential; Oscillatory somatosensory evoked potential; Median nerve; Ulnar nerve; Dipole source analysis (115) 927
- Iatrogenic Creutzfeldt-Jakob disease**; Sporadic Creutzfeldt-Jakob disease; EEG course; FIRDA; Periodic sharp wave complexes (115) 2467
- Imaging**; Ultrasound; Median nerve; Muscle; Carpal tunnel syndrome; Peripheral nerve; Nerve motion; Fasciculation; Median artery (115) 495
- Immobilization**; Plasticity; Sensorimotor restriction; Transcranial magnetic stimulation; Cortical hyperexcitability; Motor system (115) 1264
- Implicit memory**; Explicit memory; Event-related potential repetition effect; General anesthetics (115) 2403
- Inching test**; Ulnar neuropathy; Nerve conduction study; Stimulator; Conduction delay (115) 1021
- Independent component analysis**; Magnetoencephalography; Language (115) 385
- Independent component analysis**; Interictal spike; Epilepsy; Automatic detection; RAP-MUSIC (115) 508
- Independent component analysis**; Blind source separation; Automatic detection; Discrepancy (115) 1220
- Independent component analysis**; N400; Semantic; Language; Electroencephalography (115) 1349
- Infant**; Phrenic nerve conduction; Phrenic nerve palsy; Diaphragmatic action potential; Cardiac surgery; Diaphragmatic plication (115) 1469
- Inferior parietal lobule**; Multisensory integration; Multimodal sensory area; Temporo-parietal junction; Somatosensory evoked potential; Epicortical recording (115) 1145
- Information**; Analytic amplitude; gamma EEG oscillations; Hilbert transform; Order parameter; Stability; Synchrony (115) 2077
- Inhibition**; Event-related potentials; Directed forgetting; Predictive validity; Word method; Differential encoding (115) 369
- Inhibition**; Attention-deficit/hyperactivity disorder; Go/NoGo; N2 (115) 1320
- Inhibitory interneurons**; Somatosensory evoked potentials; High-frequency oscillations; Migraine; Sodium valproate; Gamma-aminobutyric acid (115) 1857
- Injury**; Carpal tunnel syndrome; ECTR; OCTR; Median nerve (115) 59
- Injury current**; DC-currents; Magnetometry; SQUID; Skeletal muscle; Ischaemia (115) 1027
- Institutional review board**; Minimal risk; Ethics; Neurophysiology; Transcranial magnetic stimulation; Children (115) 1730

- Intensity:** Attention; Laser-evoked potential; Event-related desynchronization; Electrocorticography; Pain (115) 1641
- Interhemispheric functional correlation:** Coherence; Steady-state evoked potentials; Visual systems; Cortico-cortical connectivity (115) 1409
- Interictal epileptiform activity:** Sleep; Background EEG; Epilepsy; Vagus nerve stimulation; Slow wave activity (115) 658
- Interictal epileptiform activity:** Magnetoencephalography; Scalp-EEG; Localization; Source modeling (115) 1001
- Interictal epileptiform activity:** Magnetoencephalography; Scalp EEG; Localization; Source modeling (115) 1010
- Interictal spike:** Epilepsy; Automatic detection; Independent component analysis; RAP-MUSIC (115) 508
- Interneurons:** Cervical dystonia; High-frequency oscillations; N20 potential; Somatosensory evoked potentials (115) 1624
- Interstimulus interval:** Continuous performance test; Neurocognitive development; Motor behavior; Event related potential (115) 1104
- Intracerebral recording:** Pain; Primary somatosensory area (115) 211
- Intracerebral recordings:** Somatosensory evoked potential; Stereotaxy; Somatosensory inputs; Median nerve; Motor cortex (115) 1616
- Intraclass correlation:** Soleus H reflex; Tibial nerve stimulation (115) 116
- Intracortical facilitation:** Cortical excitability; Intracortical inhibition; Motor evoked potentials; Silent period (115) 2530
- Intracortical inhibition:** Transcranial magnetic stimulation; Spinal excitability; Myopathy (115) 85
- Intracortical inhibition:** Transcranial magnetic stimulation; Cathodal electrical stimulation (115) 755
- Intracortical inhibition:** Repetitive transcranial magnetic stimulation; Theta burst stimulation; Motor evoked potential (115) 1069
- Intracortical inhibition:** Repetitive transcranial magnetic stimulation; Voluntary muscle contraction; Primary motor cortex (115) 1514
- Intracortical inhibition:** Cortical excitability; Intracortical facilitation; Motor evoked potentials; Silent period (115) 2530
- Intracortical potentials:** Somatosensory evoked potentials; SI area; High-frequency evoked responses; Epilepsy investigations; Epilepsy surgery (115) 647
- Intraoperative monitoring:** Uncrossed sensorimotor pathways; Somatosensory evoked potentials; Motor evoked potentials; Brain-stem malformation; Horizontal gaze palsy; Scoliosis (115) 576
- Intraoperative monitoring:** Somatosensory evoked potentials; Posterior tibial nerve (115) 1925
- Intrathecal baclofen:** Dystonia; H reflex; Flexor reflex; Child (115) 774
- Intravenous immunoglobulin:** Multifocal motor neuropathy with conduction block; Spinal accessory nerve; Distal conduction block (115) 2323
- Inverted-U shaped dose response curve:** Arousal level; CNV; Spontaneous EEG (115) 2693
- Ipsilateral motor response:** Transcranial magnetic stimulation; Progressive supranuclear palsy; Corticobasal-ganglionic degeneration; Multiple system atrophy (115) 1786
- Iron deficiency:** Children; Psychomotor development; P300; ERPs; Attention (115) 2259
- Irregularity:** Simulation; Motor unit potential; Concentric needle EMG (115) 543
- Ischaemia:** Injury current; DC-currents; Magnetometry; SQUID; Skeletal muscle (115) 1027
- Jack-knife validation:** Cochlear implant; Compound action potential; Psychophysical levels; Neural response telemetry; Hierarchical regression analysis (115) 2811
- Jaw movement:** Computed tomography; Minimal tonic firing rate; Single motor unit (115) 71
- Jerk-locked averaging:** Benign childhood epilepsy with centro-temporal spikes; Negative myoclonus; Carbamazepine; Segmentation; Topographic analysis (115) 50
- Jitter:** Myasthenia gravis; Repetitive nerve stimulation; Single-fibre EMG (115) 2776
- Judgment:** Two-point discrimination; Event-related potentials; Attention; P3a; P3b (115) 1875
- K complex:** Sleep spindle; Age; Sleep (115) 471
- Kinematics:** Adaptation; Motor learning; Obstacle avoidance; Muscle activity (115) 2134
- Krabbe disease:** Visual evoked potentials; Brain-stem auditory evoked potentials; Neurophysiologic studies (115) 1653
- L2 norm:** Minimum-norm estimate; Somatosensory evoked potential; Somatosensory cortex; Spatial accuracy (115) 534
- Labyrinth:** Galvanic; Electrical; Vestibular evoked myogenic potential; Body sway; Posturography (115) 807
- Landau-Kleffner:** Magnetoencephalographic spikes; Electroencephalograph detection; Epilepsy (115) 2041
- Language:** Magnetoencephalography; Independent component analysis (115) 385
- Language:** N400; Semantic; Independent component analysis; Electroencephalography (115) 1349

- Laplacian**; Error; Ne/ERN; Supervisory system; Reafferences (115) 2014
- Laplacians**; Reaction time; Precueing; Supplementary motor areas; Primary motor areas; ERPs (115) 2164
- Laser evoked potentials**; Pain; Unpleasantness; Localisation (115) 1846
- Laser-evoked potential**; Attention; Event-related desynchronization; Electroencephalography; Intensity; Pain (115) 1641
- Laser stimulation**; Skin temperature; Evoked potentials; Pain perception (115) 2629
- Late responses**; Ulnar nerve; Tibial nerve; F waves; Nerve conduction studies; F-wave latency; F-wave velocity (115) 2336
- Lateral superior olive**; Antiepileptic drugs; Cognitive functions; Epilepsy; Medial superior olive; Audition (115) 2711
- Laterality**; Alpha; Electroencephalography; Hemispheric specialization (115) 1575
- Lateralized readiness potential**; Event-related potentials; P3; NoGo-N2; Frontal selection potential; Contingent negative variation (115) 2001
- Lexical access**; Visual word recognition; Event related potential; Lexical decision; Word length; Word frequency (115) 1090
- Lexical decision**; Visual word recognition; Event related potential; Lexical access; Word length; Word frequency (115) 1090
- Limb flexion response**; Cerebellum; Associative learning; Human (115) 849
- Linear**; Alzheimer's disease; Electroencephalography; Nonlinear; Complexity; Diagnosis; Clinical neurophysiology (115) 1490
- Little finger**; Primary somatosensory cortex; Tactile interference; Thumb; Forearm; Area 3b; Magnetoencephalography (MEG) (115) 2638
- Load information**; Underwater experiment; H-reflex; Standing posture (115) 1296
- Local anesthesia**; Olfaction; Chemosensory event-related potentials (115) 1384
- Local-electrical stimulation**; Plasticity; Neuronal-motor cortex-face-evoked potentials; Motor-anesthesia (115) 2343
- Localisation**; Pain; Laser evoked potentials; Unpleasantness (115) 1846
- Localization**; Magnetoencephalography; Scalp-EEG; Interictal epileptiform activity; Source modeling (115) 1001
- Localization**; Magnetoencephalography; Scalp EEG; Interictal epileptiform activity; Source modeling (115) 1010
- Locked-in syndrome**; Automaticity; Slow cortical potential; Brain-computer interface; Skill; Amyotrophic lateral sclerosis (115) 628
- Locomotor**; H-reflex; Somatosensory evoked potential; Transcranial magnetic stimulation; Plasticity (115) 858
- Long loop reflex**; Cutaneous silent period; Exteroceptive suppression; A-8 fibers; Side-to-side difference; Gender; Normal values (115) 2123
- Long-range temporal correlations**; Spontaneous oscillations; Alpha and beta oscillations; Electroencephalography; Detrended fluctuation analysis (115) 1896
- Lorazepam**; Adaptive classification; Electroencephalography; Magnetoencephalography; Microstructure; Short-term spectral patterns (115) 674
- Low beta**; Physiological self-regulation; EEG biofeedback; Spectral EEG topography; beta1; Alpha/theta (115) 2452
- Lower brachial plexus**; Medial antebrachial cutaneous nerve; Electrodiagnosis; Nerve conduction; Thoracic outlet syndrome; Neurogenic thoracic outlet syndrome; Brachial plexus lesion; Traumatic brachial plexus lesion; Neoplastic brachial plexus lesion (115) 2316
- Maastricht Cerebral Monitor**; Electroencephalogram; Hypoxemia; Hypoxia; Near infrared spectroscopy; Newborn; Piglet (115) 282
- Machado-Joseph Disease**; Sensory gating; Event related potentials; P50; Spinocerebellar ataxias; Polyglutamine diseases (115) 2231
- Magnetencephalography**; Tonotopy; N1m; Steady-state field; Magnetic source imaging (115) 1249
- Magnetoencephalography**; Excitability; Motor cortex; Pharynx; Transcranial magnetic stimulation; Somatosensory cortex; Swallowing (115) 2382
- Magnetic field**; Nonlinear analysis; Recurrence plot; EEG; Phase space (115) 1195
- Magnetic field**; Magnetoneurography; Electroneurography; Superconducting quantum interference device (SQUID); Compound action field; Conduction block; Peripheral nerve (115) 2667
- Magnetic resonance imaging**; Vitamin B₁₂ deficiency; Visual evoked potential; Visual function (115) 914
- Magnetic resonance imaging**; Multiple sclerosis; Heart rate; Blood pressure; Autonomic nervous system (115) 1473
- Magnetic resonance imaging**; Electroencephalogram; Electrode; Epilepsy; Safety (115) 2175
- Magnetic resonance tomography**; Transcranial direct current stimulation; Diffusion-weighted imaging; Neuroplasticity; Human; Safety (115) 2419
- Magnetic source imaging**; Magnetoencephalography; Auditory evoked potentials; Auditory cortex; Auditory perception (115) 906
- Magnetic source imaging**; Tonotopy; N1m; Steady-state field; Magnetencephalography (115) 1249

- Magnetic stimulation;** Orthostatic tremor; Tremor pathophysiology; Nerve stimulation (115) 569
- Magnetic stimulation;** Cortical reactivity; Motor cortex; Prefrontal cortex (115) 583
- Magnetic stimulation;** Facial nerve; Accessory nerve; Hypoglossal nerve; Hereditary motor and sensory neuropathy (115) 1689
- Magnetic stimulation;** Post-exercise facilitation; Facilitation; Depression; Fatigue; Multiple sclerosis (115) 2128
- Magneto-encephalo-graphic;** Equivalent current dipoles; Electro-encephalo-graphic; Source reconstruction; Dipole localization accuracy (115) 1442
- Magnetoencephalographic spikes;** Electroencephalograph detection; Landau-Kleffner; Epilepsy (115) 2041
- Magnetoencephalography;** Amyotrophic lateral sclerosis; Auditory processing; Event related potential; Mismatch negativity; Glutamate (115) 309
- Magnetoencephalography;** Independent component analysis; Language (115) 385
- Magnetoencephalography;** Electroencephalography; Newborn; Sleep stage; Somatosensory evoked magnetic field; Somatosensory evoked potential (115) 448
- Magnetoencephalography;** Pain; C fiber; Attention; Electroencephalogram (115) 636
- Magnetoencephalography;** Adaptive classification; Electroencephalography; Lorazepam; Microstructure; Short-term spectral patterns (115) 674
- Magnetoencephalography;** Stroke; Motor; Somatosensory; Median nerve (115) 820
- Magnetoencephalography;** Mismatch negativity; N100; Attention; Auditory cortex; Sensory memory (115) 898
- Magnetoencephalography;** Magnetic source imaging; Auditory evoked potentials; Auditory cortex; Auditory perception (115) 906
- Magnetoencephalography;** Scalp-EEG; Interictal epileptiform activity; Localization; Source modeling (115) 1001
- Magnetoencephalography;** Scalp EEG; Interictal epileptiform activity; Localization; Source modeling (115) 1010
- Magnetoencephalography;** Mouth movement; Eye movement; Motion perception; MT/V5 (115) 1559
- Magnetoencephalography;** Visual evoked potential; MT/V5; Motion perception; Cortical electric stimulation; Subdural electrode (115) 2056
- Magnetoencephalography (MEG);** Primary somatosensory cortex; Tactile interference; Thumb; Little finger; Forearm; Area 3b (115) 2638
- Magnetometry;** Injury current; DC-currents; SQUID; Skeletal muscle; Ischaemia (115) 1027
- Magnetoneurography;** Electroneurography; Magnetic field; Superconducting quantum interference device (SQUID); Compound action field; Conduction block; Peripheral nerve (115) 2667
- Major depression;** Children; Distractibility; Event-related potential; Mismatch negativity; P3a (115) 620
- Masseter muscle;** Experimental muscle pain; Twitch force; Spike triggered averaging; Single motor unit (115) 76
- Matching pursuit;** Electroencephalography; Seizure detection; Algorithm; Neural network; Clustering (115) 2280
- McGurk effect;** Mismatch negativity; Speech perception; Short-term memory (115) 1989
- Medial antebrachial cutaneous nerve;** Lower brachial plexus; Electrodiagnosis; Nerve conduction; Thoracic outlet syndrome; Neurogenic thoracic outlet syndrome; Brachial plexus lesion; Traumatic brachial plexus lesion; Neoplastic brachial plexus lesion (115) 2316
- Medial superior olive;** Antiepileptic drugs; Cognitive functions; Epilepsy; Lateral superior olive; Audition (115) 2711
- Median artery;** Ultrasound; Median nerve; Muscle; Carpal tunnel syndrome; Imaging; Peripheral nerve; Nerve motion; Fasciculation (115) 495
- Median nerve;** Carpal tunnel syndrome; ECTR; OCTR; Injury (115) 59
- Median nerve;** Ultrasound; Muscle; Carpal tunnel syndrome; Imaging; Peripheral nerve; Nerve motion; Fasciculation; Median artery (115) 495
- Median nerve;** Stroke; Magnetoencephalography; Motor; Somatosensory (115) 820
- Median nerve;** Somatosensory evoked potential; 600 Hz wavelet; Oscillatory somatosensory evoked potential; Ulnar nerve; Dipole source analysis (115) 927
- Median nerve;** Somatosensory evoked potential; Intracerebral recordings; Stereotaxy; Somatosensory inputs; Motor cortex (115) 1616
- Median nerve;** Carpal tunnel syndrome; Entrapment neuropathy; Palmar cutaneous branch; Nerve conduction study; Orthodromic stimulation (115) 2514
- Median nerve;** Somatosensory evoked potentials; N10; Amyotrophic lateral sclerosis; Far-field potential (115) 2645
- Medical records systems;** Electroencephalography; Database; Alpha rhythm; Background activity; Computer Systems; Data interpretation; Quality management (115) 665
- MEG;** EEG; Dipole; Outcome; Epilepsy (115) 2066
- MEG-MRI co-registration;** Bite-bar; Fiducial localization error; Target registration error; Monte Carlo simulation (115) 691
- MEP;** Tuberculosis; Pott's paraplegia; Spinal cord; MRI; Evoked potential; SEP; Prognosis (115) 2267

- Methamphetamine:** Addiction; Quantitative EEG; Reaction time (115) 194
- Methylphenidate:** Attention-deficit/hyperactivity disorder; Cognitive evoked potential (P300) topography (115) 188
- Microrecording:** Basal ganglia; Thalamus; Neuronal activity; Stereotactic surgery; Dystonia (115) 2542
- Microstimulation:** Epilepsy; Dentate; Penicillin; Tetanus toxin; Rat (115) 2502
- Microstructure:** Adaptive classification; Electroencephalography; Lorazepam; Magnetoencephalography; Short-term spectral patterns (115) 674
- Middle cerebral arteries:** Cortical language dominance; Functional transcranial Doppler sonography (115) 154
- Migraine:** Somatosensory evoked potentials; High-frequency oscillations; Inhibitory interneurons; Sodium valproate; Gamma-aminobutyric acid (115) 1857
- Mild Alzheimer's disease:** Vascular dementia; Electroencephalography; Alpha rhythm; Delta rhythm (115) 299
- Mild cognitive impairment:** EEG; Alzheimer's disease; Working memory; Synchronization likelihood (115) 1332
- Minimal risk:** Institutional review board; Ethics; Neurophysiology; Transcranial magnetic stimulation; Children (115) 1730
- Minimal tonic firing rate:** Computed tomography; Jaw movement; Single motor unit (115) 71
- Minimum-norm estimate:** L2 norm; Somatosensory evoked potential; Somatosensory cortex; Spatial accuracy (115) 534
- Minimum norm estimates:** EEG; Simulation studies; Current density distributions (115) 1657
- Mirror neurons:** EEG; Wavelets; Beta rhythm; Action observation (115) 1760
- Mismatch negativity:** Event related potential; Central auditory processing; Sound discrimination (115) 140
- Mismatch negativity:** Amyotrophic lateral sclerosis; Magnetoencephalography; Auditory processing; Event related potential; Glutamate (115) 309
- Mismatch negativity:** Children; Major depression; Distractibility; Event-related potential; P3a (115) 620
- Mismatch negativity:** Magnetoencephalography; N100; Attention; Auditory cortex; Sensory memory (115) 898
- Mismatch negativity:** Cochlear implant; Auditory processing; Music; Electroencephalogram; Early right anterior negativity; N5 (115) 966
- Mismatch negativity:** McGurk effect; Speech perception; Short-term memory (115) 1989
- Mismatch negativity (MMN):** Auditory evoked potential; Object naming; Very low birth weight children (115) 179
- Mobile phone:** Electromagnetic field; Event-related potential; Performance; Pilot study (115) 171
- Modafinil:** Somatosensory evoked potentials; High frequency oscillations; Brain-stem; Sleep (115) 919
- Modality:** Nogo potentials; N140; P300; Response inhibition; Human (115) 361
- Modeling:** Stochastic resonance; Sensory information processing; Review of application; Vision; Tactile; Hearing; Perception; Psychophysics; Electrophysiology; Hearing prostheses; Animal behavior (115) 267
- Monte Carlo simulation:** MEG-MRI co-registration; Bite-bar; Fiducial localization error; Target registration error (115) 691
- Morphometry:** Nerve conduction study; Charcot-Marie-Tooth disease (115) 64
- Motion perception:** Magnetoencephalography; Mouth movement; Eye movement; MT/V5 (115) 1559
- Motion perception:** Visual evoked potential; MT/V5; Cortical electric stimulation; Subdural electrode; Magnetoencephalography (115) 2056
- Motor:** Stroke; Magnetoencephalography; Somatosensory; Median nerve (115) 820
- Motor activity-related cortical potential (MRCP):** Negative potential (NP); Electroencephalography (EEG); Electromyography (EMG); Voluntary muscle contraction; Muscle fatigue; Muscle strength (115) 2372
- Motor behavior:** Continuous performance test; Neurocognitive development; Event related potential; Interstimulus interval (115) 1104
- Motor conduction:** Carpal tunnel syndrome; CTS; Electrodiagnosis; Retrograde axonal atrophy (115) 2783
- Motor control:** Coherence; EEG; Connectivity; Volume conduction; Time-lag (115) 2292
- Motor cortex:** Transcranial brain stimulation; Cerebral cortex atrophy; Alcohol; Transcranial magnetic stimulation (115) 112
- Motor cortex:** Short-interval intracortical inhibition; Motor evoked potential; Transcranial magnetic stimulation; Hemispheric asymmetry (115) 330
- Motor cortex:** Transcranial magnetic stimulation; Frontal cortex; Facial muscle; Blink reflex (115) 341
- Motor cortex:** Transcranial direct current stimulation; Somatosensory evoked potential; Neuroplasticity; Cortical excitability; Human (115) 456
- Motor cortex:** Cortical reactivity; Prefrontal cortex; Magnetic stimulation (115) 583
- Motor cortex:** Passive movement; Plasticity; Transcranial magnetic stimulation; Stroke; Afference (115) 765

- Motor cortex;** Movement threshold; Hot spot; Transcranial magnetic stimulation; Human (115) 812
- Motor cortex;** Transcranial brain stimulation; Transcranial magnetic stimulation; Epidural cortex stimulation (115) 834
- Motor cortex;** Motor evoked potentials; Transcranial magnetic stimulation; Facial muscles; Coil orientation; Current direction (115) 862
- Motor cortex;** Excitability; Plasticity; Repetitive transcranial magnetic stimulation; Swallowing (115) 1044
- Motor cortex;** Corticospinal excitability; Plasticity; Repetitive transcranial magnetic stimulation (115) 1519
- Motor cortex;** Somatosensory evoked potential; Intracerebral recordings; Stereotaxy; Somatosensory inputs; Median nerve (115) 1616
- Motor cortex;** Excitability; Magnetoencephalography; Pharynx; Transcranial magnetic stimulation; Somatosensory cortex; Swallowing (115) 2382
- Motor cortical excitability;** Transcranial magnetic stimulation; Neuropharmacology; CNS active drugs; Motor evoked potential; Corticospinal projection; Human (115) 1717
- Motor evoked potential;** Short-interval intracortical inhibition; Transcranial magnetic stimulation; Motor cortex; Hemispheric asymmetry (115) 330
- Motor evoked potential;** Ataxia; Cerebellum; Cortical silent period; Motor evoked potential recruitment curve; Transcranial magnetic stimulation (115) 348
- Motor evoked potential;** Cortical inhibition; Electrophysiology; Excitability threshold; Silent period (115) 956
- Motor evoked potential;** Repetitive transcranial magnetic stimulation; Theta burst stimulation; Intracortical inhibition (115) 1069
- Motor evoked potential;** Transcranial magnetic stimulation; Neuropharmacology; CNS active drugs; Motor cortical excitability; Corticospinal projection; Human (115) 1717
- Motor evoked potentials;** Uncrossed sensorimotor pathways; Somatosensory evoked potentials; Intraoperative monitoring; Brain-stem malformation; Horizontal gaze palsy; Scoliosis (115) 576
- Motor evoked potentials;** Transcranial magnetic stimulation; Motor cortex; Facial muscles; Coil orientation; Current direction (115) 862
- Motor evoked potentials;** Transcranial electrical stimulation; Scoliosis; Absolute refractory period; Corticospinal tract; D wave (115) 1931
- Motor evoked potentials;** Triple stimulation technique; Temperature; Conduction block; Pyramidal tract (115) 2493
- Motor evoked potentials;** Cortical excitability; Intracortical facilitation; Intracortical inhibition; Silent period (115) 2530
- Motor evoked potential recruitment curve;** Ataxia; Cerebellum; Cortical silent period; Motor evoked potential; Transcranial magnetic stimulation (115) 348
- Motor imagery;** Brain-computer interface (BCI); Electroencephalography (EEG); Event-related desynchronization (ERD); Spatial correlation; Time-frequency weighting (115) 2744
- Motor learning;** Event related potential; Readiness potential; Training; Habituation; Attention (115) 378
- Motor learning;** Adaptation; Obstacle avoidance; Muscle activity; Kinematics (115) 2134
- Motor mapping;** Extensor digitorum communis; Reliability; Center of gravity (115) 1740
- Motor outcome;** Stroke; Cortical reorganization; Transcranial magnetic stimulation (115) 2144
- Motor potentials;** Anterior cingulate cortex; Supplementary motor area; Error-related negativity; Event-related potentials; Theta; Oscillations; Phase resetting (115) 1821
- Motor system;** Plasticity; Immobilization; Sensorimotor restriction; Transcranial magnetic stimulation; Cortical hyperexcitability (115) 1264
- Motor system;** Muscle pain; Muscle performance; Ballistic movement (115) 1779
- Motor unit;** Stroke; Electromyogram; F-wave; Trans-synaptic degeneration (115) 97
- Motor unit;** Experimental muscle pain; Fatigue (115) 1767
- Motor unit firing;** Vestibulocollic reflex; Vestibular apparatus (115) 2567
- Motor unit number estimation;** Spike triggered averaging; Decomposition algorithms (115) 564
- Motor unit potential;** Simulation; Concentric needle EMG; Irregularity (115) 543
- Motor unit potentials;** External anal sphincter muscle; Needle electromyography; Sample size; Sensitivity (115) 1683
- Motor-anesthesia;** Plasticity; Neuronal-motor cortex-face-evoked potentials; Local-electrical stimulation (115) 2343
- Motor-evoked potentials;** Transcranial magnetic stimulation; Thenar; Hypothenar; Collision Technique (115) 2558
- Motor-related potentials;** Button-press; Event-related potentials; P3(00); Scalp topography (115) 1550
- Mouth movement;** Magnetoencephalography; Eye movement; Motion perception; MT/V5 (115) 1559
- Movement disorder;** Parkinson's disease; Essential tremor; Dystonia; High-frequency stimulation; Thalamus; Basal ganglia (115) 1239
- Movement disorders;** Electrical stimulation; Neural prosthesis; Subthalamic nucleus; Thalamus (115) 2431

- Movement preparation;** Contingent negative variation; Event-related desynchronization; Orienting reaction; Childhood; Adolescence (115) 1836
- Movement related cortical potentials;** Somatosensory evoked potentials; Gaze direction; Spatial attention (115) 29
- Movement related potential;** Traumatic brain injury; Frontal lobe; EEG; Bereitschaftspotential; Supplementary motor area (115) 289
- Movement threshold;** Hot spot; Transcranial magnetic stimulation; Motor cortex; Human (115) 812
- Movement-related potential;** Traumatic brain injury; Frontal lobe; EEG; Bereitschaftspotential; Recovery (115) 2677
- MRCP;** EEG; Control-signal gain; Perceived effort; Force production (115) 2391
- MRI;** Tuberculosis; Pott's paraplegia; Spinal cord; Evoked potential; MEP; SEP; Prognosis (115) 2267
- MT/V5;** Magnetoencephalography; Mouth movement; Eye movement; Motion perception (115) 1559
- MT/V5;** Visual evoked potential; Motion perception; Cortical electric stimulation; Subdural electrode; Magnetoencephalography (115) 2056
- Mu rhythm;** Electroencephalography; Sensorimotor cortex; Rehabilitation; Brain-computer interface; Common spatial subspace decomposition (115) 745
- Multichannel EEG;** Total sleep deprivation; Functional clustering (115) 2825
- Multifocal motor neuropathy with conduction block;** Spinal accessory nerve; Intravenous immunoglobulin; Distal conduction block (115) 2323
- Multimodal sensory area;** Multisensory integration; Temporoparietal junction; Inferior parietal lobule; Somatosensory evoked potential; Epicortical recording (115) 1145
- Multiple dipole model;** N400-like components; Priming; Face processing; Electroencephalogram (115) 880
- Multiple sclerosis;** Heart rate; Blood pressure; Autonomic nervous system; Magnetic resonance imaging (115) 1473
- Multiple sclerosis;** Magnetic stimulation; Post-exercise facilitation; Facilitation; Depression; Fatigue (115) 2128
- Multiple sclerosis;** Transcranial magnetic stimulation; Fatigue; Voluntary contraction (115) 2364
- Multiple system atrophy;** Transcranial magnetic stimulation; Progressive supranuclear palsy; Corticobasal-ganglionic degeneration; Ipsilateral motor response (115) 1786
- Multisensory integration;** Multimodal sensory area; Temporoparietal junction; Inferior parietal lobule; Somatosensory evoked potential; Epicortical recording (115) 1145
- Multivariate autoregressive model;** Electromyography classification; Principal component analysis (115) 1276
- Muscle;** Ultrasound; Median nerve; Carpal tunnel syndrome; Imaging; Peripheral nerve; Nerve motion; Fasciculation; Median artery (115) 495
- Muscle activity;** Adaptation; Motor learning; Obstacle avoidance; Kinematics (115) 2134
- Muscle fatigue;** Motor activity-related cortical potential (MRCP); Negative potential (NP); Electroencephalography (EEG); Electromyography (EMG); Voluntary muscle contraction; Muscle strength (115) 2372
- Muscle pain;** Muscle performance; Motor system; Ballistic movement (115) 1779
- Muscle performance;** Muscle pain; Motor system; Ballistic movement (115) 1779
- Muscle strength;** Motor activity-related cortical potential (MRCP); Negative potential (NP); Electroencephalography (EEG); Electromyography (EMG); Voluntary muscle contraction; Muscle fatigue (115) 2372
- Muscle synergy;** Cutaneous silent period; Exteroceptive suppression; A- δ fibers; Spinal cord (115) 1052
- Music;** Cochlear implant; Auditory processing; Electroencephalogram; Early right anterior negativity; Mismatch negativity; N5 (115) 966
- Music and speech processing;** Power and phase modulation; Time-frequency representations; Auditory evoked response; Tempo (115) 1885
- Myasthenia gravis;** Repetitive nerve stimulation; Single-fibre EMG; Jitter (115) 2776
- Myopathy;** Transcranial magnetic stimulation; Intracortical inhibition; Spinal excitability (115) 85
- N10;** Somatosensory evoked potentials; Median nerve; Amyotrophic lateral sclerosis; Far-field potential (115) 2645
- N100;** CNV; Aging; Attentional cueing (115) 2602
- N100;** Magnetoencephalography; Mismatch negativity; Attention; Auditory cortex; Sensory memory (115) 898
- N100m response;** Auditory evoked fields; Equivalent current dipole; Tonotopic organization; Short-term plastic change; Selective attention; Tonotopic map (115) 1592
- N140;** Nogo potentials; Modality; P300; Response inhibition; Human (115) 361
- N140;** Passive; Active; Attention; Deviant alone; P100 (115) 871
- N140;** Resource; P300; Dual task; Attention (115) 2616
- N1m;** Tonotopy; Steady-state field; Magnetencephalography; Magnetic source imaging (115) 1249

- N2**; Attention-deficit/hyperactivity disorder; Go/NoGo; Inhibition (115) 1320
- N20 potential**; Cervical dystonia; High-frequency oscillations; Interneurons; Somatosensory evoked potentials (115) 1624
- N2b**; Attention-deficit hyperactivity disorder; Event-related brain potentials; Visual selective attention; Source localization; Frontal selection positivity (115) 1537
- N400**; Semantic; Independent component analysis; Language; Electroencephalography (115) 1349
- N400-like components**; Priming; Multiple dipole model; Face processing; Electroencephalogram (115) 880
- N5**; Cochlear implant; Auditory processing; Music; Electroencephalogram; Early right anterior negativity; Mismatch negativity (115) 966
- Near infrared spectroscopy**; Maastricht Cerebral Monitor; Electroencephalogram; Hypoxemia; Hypoxia; Newborn; Piglet (115) 282
- Needle electromyography**; External anal sphincter muscle; Motor unit potentials; Sample size; Sensitivity (115) 1683
- Ne/ERN**; Error; Supervisory system; Reafferences; Laplacian (115) 2014
- Negative myoclonus**; Benign childhood epilepsy with centrotemporal spikes; Carbamazepine; Jerk-locked averaging; Segmentation; Topographic analysis (115) 50
- Negative potential (NP)**; Motor activity-related cortical potential (MRCP); Electroencephalography (EEG); Electromyography (EMG); Voluntary muscle contraction; Muscle fatigue; Muscle strength (115) 2372
- Neonatal EEG**; Periodic breathing; Polysomnography; Respiratory distress syndrome; Hypoxia (115) 2247
- Neonatal EEG**; Quadratic phase coupling; Phase-locking; Trace alternant; Gabor expansion; Time-variant bispectral analysis (115) 2308
- Neonatal EEG**; Temporal sharp waves; Brain ultrasound lesions; Premature infants; Neonatal neurodevelopmental assessment (115) 2479
- Neonatal neurodevelopmental assessment**; Neonatal EEG; Temporal sharp waves; Brain ultrasound lesions; Premature infants (115) 2479
- Neonate**; Hearing; Auditory function; Brain-stem auditory evoked response; Evoked potentials; Asphyxia; Hypoxia-ischaemia (115) 1605
- Neonate**; EEG; Spectral analysis; Asphyxia (115) 2461
- Neoplastic brachial plexus lesion**; Lower brachial plexus; Medial antebrachial cutaneous nerve; Electrodiagnosis; Nerve conduction; Thoracic outlet syndrome; Neurogenic thoracic outlet syndrome; Brachial plexus lesion; Traumatic brachial plexus lesion (115) 2316
- Nerve conduction**; Lower brachial plexus; Medial antebrachial cutaneous nerve; Electrodiagnosis; Thoracic outlet syndrome; Neurogenic thoracic outlet syndrome; Brachial plexus lesion; Traumatic brachial plexus lesion; Neoplastic brachial plexus lesion (115) 2316
- Nerve conduction studies**; Ulnar nerve; Tibial nerve; F waves; Late responses; F-wave latency; F-wave velocity (115) 2336
- Nerve conduction study**; Charcot-Marie-Tooth disease; Morphometry (115) 64
- Nerve conduction study**; Posterior antebrachial cutaneous nerve; Normal value (115) 752
- Nerve conduction study**; Ulnar neuropathy; Inching test; Stimulator; Conduction delay (115) 1021
- Nerve conduction study**; Carpal tunnel syndrome; Entrapment neuropathy; Median nerve; Palmar cutaneous branch; Orthodromic stimulation (115) 2514
- Nerve motion**; Ultrasound; Median nerve; Muscle; Carpal tunnel syndrome; Imaging; Peripheral nerve; Fasciculation; Median artery (115) 495
- Nerve stimulation**; Orthostatic tremor; Tremor pathophysiology; Magnetic stimulation (115) 569
- Neural network**; Electroencephalography; Seizure detection; Algorithm; Matching pursuit; Clustering (115) 2280
- Neural prosthesis**; Electrical stimulation; Movement disorders; Subthalamic nucleus; Thalamus (115) 2431
- Neural response telemetry**; Cochlear implant; Compound action potential; Psychophysical levels; Hierarchical regression analysis; Jack-knife validation (115) 2811
- Neurocognitive development**; Continuous performance test; Motor behavior; Event related potential; Interstimulus interval (115) 1104
- Neurofeedback**; EEG biofeedback; Beta1 activity; Sensorimotor rhythm; Attention; P300 (115) 131
- Neurogenic thoracic outlet syndrome**; Lower brachial plexus; Medial antebrachial cutaneous nerve; Electrodiagnosis; Nerve conduction; Thoracic outlet syndrome; Brachial plexus lesion; Traumatic brachial plexus lesion; Neoplastic brachial plexus lesion (115) 2316
- Neuroimaging**; EEG; Source localization (115) 2195
- Neuromagnetic recording**; Evoked magnetic compound action field; Evoked compound action potential; Conduction block; Peripheral nerve; Sciatic nerve; Biomagnetism (115) 2113
- Neuronal activity**; Basal ganglia; Thalamus; Microrecording; Stereotactic surgery; Dystonia (115) 2542
- Neuronal-motor cortex-face-evoked potentials**; Plasticity; Motor-anesthesia; Local-electrical stimulation (115) 2343
- Neuropathy**; Sway; Diabetes; Stretch reflex; Group II fibre (115) 779

- Neuropharmacology**; Transcranial magnetic stimulation; CNS active drugs; Motor cortical excitability; Motor evoked potential; Corticospinal projection; Human (115) 1717
- Neurophysiologic studies**; Krabbe disease; Visual evoked potentials; Brain-stem auditory evoked potentials (115) 1653
- Neurophysiology**; Acceleration; Brainhemorrhage; Traumatic; Deceleration; Diffuse axonal injury; Electrophysiology (115) 4
- Neurophysiology**; Institutional review board; Minimal risk; Ethics; Transcranial magnetic stimulation; Children (115) 1730
- Neurophysiology**; Restless legs syndrome; Periodic limb movements; Pathophysiology; Animal studies; Dopamine; Opioids (115) 1975
- Neurophysiology**; Acute inflammatory demyelinating polyradiculoneuropathy; Guillain-Barre syndrome (115) 2329
- Neurophysiology**; Cortical dementia; Cholinergic transmission; Diagnostic protocols (115) 2410
- Neuroplasticity**; Transcranial direct current stimulation; Somatosensory evoked potential; Motor cortex; Cortical excitability; Human (115) 456
- Neuroplasticity**; Transcranial direct current stimulation; Magnetic resonance tomography; Diffusion-weighted imaging; Human; Safety (115) 2419
- Neuropsychology**; Obsessive-compulsive disorder; Quantitative EEG (115) 1340
- Newborn**; Electroencephalography; Magnetoencephalography; Sleep stage; Somatosensory evoked magnetic field; Somatosensory evoked potential (115) 448
- Newborn**; Maastricht Cerebral Monitor; Electroencephalogram; Hypoxemia; Hypoxia; Near infrared spectroscopy; Piglet (115) 282
- Night terrors**; Polysomnography; Thalamic lesion (115) 2489
- Nocturnal frontal lobe epilepsy**; Epilepsy; Frequency band synchronization (115) 1202
- Nogo potentials**; Modality; N140; P300; Response inhibition; Human (115) 361
- NoGo-N2**; Event-related potentials; P3; Frontal selection potential; Lateralized readiness potential; Contingent negative variation (115) 2001
- Non REM sleep**; Event related potential; Aging (115) 732
- Non-convulsive status epilepticus**; Creutzfeldt-Jakob disease; Electroencephalogram; Differential diagnosis; Benzodiazepine administration (115) 316
- Nonlinear**; Alzheimer's disease; Electroencephalography; Linear; Complexity; Diagnosis; Clinical neurophysiology (115) 1490
- Nonlinear analysis**; Recurrence plot; Magnetic field; EEG; Phase space (115) 1195
- Non-linear analysis**; Synchronization likelihood; Heart rate variability; Sleep (115) 2031
- Normal value**; Posterior antebrachial cutaneous nerve; Nerve conduction study (115) 752
- Normal values**; Cutaneous silent period; Exteroceptive suppression; A- δ fibers; Long loop reflex; Side-to-side difference; Gender (115) 2123
- Novelty P3**; Oddball; Environmental sounds; Event-related brain potential (115) 1359
- Nystagmus**; Human; Visual cortex; VEP; Pattern-onset; Pattern-reversal (115) 2659
- Object naming**; Auditory evoked potential; Very low birth weight children; Mismatch negativity (MMN) (115) 179
- Obsessive-compulsive disorder**; Quantitative EEG; Neuropsychology (115) 1340
- Obstacle avoidance**; Adaptation; Motor learning; Muscle activity; Kinematics (115) 2134
- Occupational outcome**; EEG correlation index; Visual discrimination; Visual perception disabilities; Adolescents (115) 2574
- Occupational outcome**; EEG correlation index; Reading; Dyslexia; Reading and writing impairment; Adolescents (115) 2584
- OCTR**; Carpal tunnel syndrome; ECTR; Median nerve; Injury (115) 59
- Ocular artefacts**; Principal component analysis; Blinking; Dyslexia; Event related potential; Single sweep analysis (115) 609
- Oddball**; Novelty P3; Environmental sounds; Event-related brain potential (115) 1359
- Olfaction**; Local anesthesia; Chemosensory event-related potentials (115) 1384
- Opioids**; Restless legs syndrome; Periodic limb movements; Pathophysiology; Animal studies; Dopamine; Neurophysiology (115) 1975
- Optic glioma**; Flicker; Fourier analysis; Optic pathways; Visual evoked potentials (115) 217
- Optic neuritis**; Pupil response; Demyelination; Ganglion cell; Colour vision (115) 2650
- Optic pathways**; Flicker; Fourier analysis; Optic glioma; Visual evoked potentials (115) 217
- Order parameter**; Analytic amplitude; gamma EEG oscillations; Hilbert transform; Information; Stability; Synchrony (115) 2077
- Orienting reaction**; Contingent negative variation; Event-related desynchronization; Movement preparation; Childhood; Adolescence (115) 1836

- Orthodromic stimulation;** Carpal tunnel syndrome; Entrapment neuropathy; Median nerve; Palmar cutaneous branch; Nerve conduction study (115) 2514
- Orthostatic tremor;** Tremor pathophysiology; Magnetic stimulation; Nerve stimulation (115) 569
- Oscillations;** Anterior cingulate cortex; Supplementary motor area; Error-related negativity; Motor potentials; Event-related potentials; Theta; Phase resetting (115) 1821
- Oscillatory activity;** Steady state evoked potential; Auditory evoked potential; Human (115) 699
- Oscillatory potentials;** Gamma band response; Vision; Pattern VEP; Contrast stimulation; Healthy volunteers; Factor analysis (115) 1669
- Oscillatory somatosensory evoked potential;** Somatosensory evoked potential; 600 Hz wavelet; Median nerve; Ulnar nerve; Dipole source analysis (115) 927
- Outcome;** Temporal lobe epilepsy; Electroencephalogram; Epilepsy surgery (115) 1212
- Outcome;** MEG; EEG; Dipole; Epilepsy (115) 2066
- Overlapped responses;** q-Sequence; Deconvolution; QSD; Superposition; Quasi-periodic; Auditory brainstem response; Evoked-responses; Stimulus rate (115) 2754
- P1;** Visuospatial attention; Central cues; Peripheral cues; Event-related potentials (115) 199
- P100;** Passive; Active; Attention; Deviant alone; N140 (115) 871
- P3;** Event-related potentials; NoGo-N2; Frontal selection potential; Lateralized readiness potential; Contingent negative variation (115) 2001
- P3(00);** Button-press; Event-related potentials; Motor-related potentials; Scalp topography (115) 1550
- P300;** EEG biofeedback; Neurofeedback; Beta1 activity; Sensorimotor rhythm; Attention (115) 131
- P300;** Nogo potentials; Modality; N140; Response inhibition; Human (115) 361
- P300;** Alcoholism heritability; Event-related potentials; Tobacco; Smoking (115) 1374
- P300;** Electroencephalography; Functional magnetic resonance imaging; Event-related potentials; Artifacts (115) 2181
- P300;** Iron deficiency; Children; Psychomotor development; ERPs; Attention (115) 2259
- P300;** Resource; N140; Dual task; Attention (115) 2616
- P3a;** Children; Major depression; Distractibility; Event-related potential; Mismatch negativity (115) 620
- P3a;** Human immunodeficiency virus; P3b; Viral load; Antiretroviral therapy (115) 1583
- P3a;** Two-point discrimination; Event-related potentials; Attention; Judgment; P3b (115) 1875
- P3b;** Human immunodeficiency virus; P3a; Viral load; Antiretroviral therapy (115) 1583
- P3b;** Two-point discrimination; Event-related potentials; Attention; Judgment; P3a (115) 1875
- P50;** Evoked potentials; Schizophrenia; Antipsychotics; Clozapine (115) 396
- P50;** Machado-Joseph Disease; Sensory gating; Event related potentials; Spinocerebellar ataxias; Polyglutamine diseases (115) 2231
- Pain;** Primary somatosensory area; Intracerebral recording (115) 211
- Pain;** Deep brain stimulation; Thalamus; Somatosensory evoked potentials; Parkinson's disease (115) 424
- Pain;** Magnetoencephalography; C fiber; Attention; Electroencephalogram (115) 636
- Pain;** Attention; Laser-evoked potential; Event-related desynchronization; Electroencephalography; Intensity (115) 1641
- Pain;** Laser evoked potentials; Unpleasantness; Localisation (115) 1846
- Pain perception;** Laser stimulation; Skin temperature; Evoked potentials (115) 2629
- Paired pulse stimulation;** Cortical excitability; Repetitive transcranial magnetic stimulation (115) 1259
- Paired-pulse;** Epilepsy; Transcranial magnetic stimulation; Seizure; Safety; Single-pulse (115) 2728
- Paired-pulse technique;** Transcranial magnetic stimulation; Handedness; Transcallosal inhibition; Corpus callosum; Corticospinal system; Gender (115) 1305
- Palmar cutaneous branch;** Carpal tunnel syndrome; Entrapment neuropathy; Median nerve; Nerve conduction study; Orthodromic stimulation (115) 2514

- Reconstruction;** Spatio-temporal decomposition; Feature extraction; Artefact; Principal component analysis; Cluster analysis; Blind separation; Focal activity (115) 227
- Recovery;** Electromyogram; Spinal cord injury; Human; Voluntary contraction (115) 1748
- Recovery;** Traumatic brain injury; Frontal lobe; EEG; Bereitschaftspotential; Movement-related potential (115) 2677
- Recruitment;** Transcranial magnetic stimulation; Cortical silent period; Variability; Current flow direction (115) 1076
- Recurrence plot;** Nonlinear analysis; Magnetic field; EEG; Phase space (115) 1195
- Referred muscle pain;** Exteroceptive suppression; Convergence; Trigeminal-cervical reflex (115) 1399
- Reflex;** Postural control; Weight-bearing; Cerebrovascular accident (115) 2789

- Refractoriness**; Diabetic neuropathy; Refractory period; Sodium channel (115) 2525
- Refractory period**; Diabetic neuropathy; Refractoriness; Sodium channel (115) 2525
- Rehabilitation**; Mu rhythm; Electroencephalography; Sensorimotor cortex; Brain-computer interface; Common spatial subspace decomposition (115) 745
- Rehabilitation**; Stroke; Trunk; Exercise (115) 790
- Reliability**; Extensor digitorum communis; Motor mapping; Center of gravity (115) 1740
- Repetitive nerve stimulation**; Compound muscle action potential; Temperature; Short exercise test (115) 1457
- Repetitive nerve stimulation**; Myasthenia gravis; Single-fibre EMG; Jitter (115) 2776
- Repetitive transcranial magnetic stimulation**; Excitability; Motor cortex; Plasticity; Swallowing (115) 1044
- Repetitive transcranial magnetic stimulation**; Theta burst stimulation; Motor evoked potential; Intracortical inhibition (115) 1069
- Repetitive transcranial magnetic stimulation**; Cortical excitability; Paired pulse stimulation (115) 1259
- Repetitive transcranial magnetic stimulation**; Amyotrophic lateral sclerosis; Glutamate; Excitotoxicity (115) 1479
- Repetitive transcranial magnetic stimulation**; Intracortical inhibition; Voluntary muscle contraction; Primary motor cortex (115) 1514
- Repetitive transcranial magnetic stimulation**; Corticospinal excitability; Motor cortex; Plasticity (115) 1519
- Resource**; N140; P300; Dual task; Attention (115) 2616
- Respiratory distress syndrome**; Periodic breathing; Neonatal EEG; Polysomnography; Hypoxia (115) 2247
- Response inhibition**; Nogo potentials; Modality; N140; P300; Human (115) 361
- Response inhibition**; Attention deficit/hyperactivity disorder; Anterior cingulate cortex; Prefrontal response control (115) 973
- Resting baseline**; Electroencephalographic; Peak alpha frequency; Cognitive preparedness; Traumatic brain injury; Working memory; Trait; State (115) 887
- Restless legs**; Diagnosis; Polysomnography; Actigraphy; Periodic limb movements; Sleep; Electromyography; Clinical grading; Therapeutic evaluation; Suggested immobilization test (115) 1965
- Restless legs syndrome**; Periodic limb movements; Pathophysiology; Animal studies; Dopamine; Opioids; Neurophysiology (115) 1975
- Retrograde axonal atrophy**; Carpal tunnel syndrome; CTS; Electrodiagnosis; Motor conduction (115) 2783
- Revue of application**; Stochastic resonance; Sensory information processing; Vision; Tactile; Hearing; Perception; Psychophysics; Electrophysiology; Hearing prostheses; Animal behavior; Modeling (115) 267
- Safety**; Electroencephalogram; Electrode; Epilepsy; Magnetic resonance imaging (115) 2175
- Safety**; Transcranial direct current stimulation; Magnetic resonance tomography; Diffusion-weighted imaging; Neuroplasticity; Human (115) 2419
- Safety**; Epilepsy; Transcranial magnetic stimulation; Seizure; Single-pulse; Paired-pulse (115) 2728
- Sample size**; External anal sphincter muscle; Motor unit potentials; Needle electromyography; Sensitivity (115) 1683
- Scalp EEG**; Magnetoencephalography; Interictal epileptiform activity; Localization; Source modeling (115) 1010
- Scalp-EEG**; Magnetoencephalography; Interictal epileptiform activity; Localization; Source modeling (115) 1001
- Scalp topography**; Button-press; Event-related potentials; Motor-related potentials; P3(00) (115) 1550
- Schizophrenia**; Evoked potentials; P50; Antipsychotics; Clozapine (115) 396
- Schizophrenia**; Phase synchronization; Auditory evoked potential; Gating; Suppression; Electroencephalogram (115) 523
- Schizophrenia**; Gamma; EEG; Event-related potential; Frontal lobe; Binding (115) 1863
- Sciatic nerve**; Evoked magnetic compound action field; Evoked compound action potential; Conduction block; Peripheral nerve; Neuromagnetic recording; Biomagnetism (115) 2113
- Scoliosis**; Uncrossed sensorimotor pathways; Somatosensory evoked potentials; Motor evoked potentials; Intraoperative monitoring; Brain-stem malformation; Horizontal gaze palsy (115) 576
- Scoliosis**; Motor evoked potentials; Transcranial electrical stimulation; Absolute refractory period; Corticospinal tract; D wave (115) 1931
- Sedation**; Partial sleep deprivation; Pediatric EEG (115) 951
- Segmentation**; Benign childhood epilepsy with centrotemporal spikes; Negative myoclonus; Carbamazepine; Jerk-locked averaging; Topographic analysis (115) 50
- Seizure**; Epilepsy; Transcranial magnetic stimulation; Safety; Single-pulse; Paired-pulse (115) 2728
- Seizure detection**; Electroencephalography; Algorithm; Neural network; Matching pursuit; Clustering (115) 2280
- Selective attention**; Somatosensory; Event related brain potential; Spatial cognition (115) 596

- Selective attention:** Visual-spatial; Visual processing; Eye gaze (115) 1161
- Selective attention:** N100m response; Auditory evoked fields; Equivalent current dipole; Tonotopic organization; Short-term plastic change; Tonotopic map (115) 1592
- Self-organized criticality:** Analytic phase; Basis function; Phase cone; Phase gradient; Spatial EEG pattern; Spontaneous cortical activity (115) 2089
- Semantic:** N400; Independent component analysis; Language; Electroencephalography (115) 1349
- Sensitivity:** External anal sphincter muscle; Motor unit potentials; Needle electromyography; Sample size (115) 1683
- Sensorimotor cortex:** Mu rhythm; Electroencephalography; Rehabilitation; Brain-computer interface; Common spatial subspace decomposition (115) 745
- Sensorimotor restriction:** Plasticity; Immobilization; Transcranial magnetic stimulation; Cortical hyperexcitability; Motor system (115) 1264
- Sensorimotor rhythm:** EEG biofeedback; Neurofeedback; Beta1 activity; Attention; P300 (115) 131
- Sensory gating:** Machado-Joseph Disease; Event related potentials; P50; Spinocerebellar ataxias; Polyglutamine diseases (115) 2231
- Sensory information processing:** Stochastic resonance; Review of application; Vision; Tactile; Hearing; Perception; Psychophysics; Electrophysiology; Hearing prostheses; Animal behavior; Modeling (115) 267
- Sensory memory:** Magnetoencephalography; Mismatch negativity; N100; Attention; Auditory cortex (115) 898
- Sensory nerve conduction:** Plantar nerve; Rat nerve conduction; Experimental neuropathy (115) 1677
- SEP:** Tuberculosis; Pott's paraplegia; Spinal cord; MRI; Evoked potential; MEP; Prognosis (115) 2267
- Sequential movements:** Event-related desynchronization; Event-related synchronization; Human; Electroencephalogram (115) 124
- Serotonin:** Transcranial magnetic stimulation; Primary motor cortex; Plasticity; Fluoxetine (115) 2157
- Short exercise test:** Compound muscle action potential; Temperature; Repetitive nerve stimulation (115) 1457
- Short-interval intracortical inhibition:** Motor evoked potential; Transcranial magnetic stimulation; Motor cortex; Hemispheric asymmetry (115) 330
- Short term memory:** Delayed choice reaction time; Cerebral cortex; Electroencephalography; Theta rhythm; Alpha rhythm; Event related desynchronization/synchronization (115) 161
- Short-term memory:** Mismatch negativity; McGurk effect; Speech perception (115) 1989
- Short-term plastic change:** N100m response; Auditory evoked fields; Equivalent current dipole; Tonotopic organization; Selective attention; Tonotopic map (115) 1592
- Short-term spectral patterns:** Adaptive classification; Electroencephalography; Lorazepam; Magnetoencephalography; Microstructure (115) 674
- SI area:** Somatosensory evoked potentials; Intracortical potentials; High-frequency evoked responses; Epilepsy investigations; Epilepsy surgery (115) 647
- Side-to-side difference:** Cutaneous silent period; Exteroceptive suppression; A- δ fibers; Long loop reflex; Gender; Normal values (115) 2123
- Silent period:** Cortical inhibition; Electrophysiology; Excitability threshold; Motor evoked potential (115) 956
- Silent period:** Cortical excitability; Intracortical facilitation; Intracortical inhibition; Motor evoked potentials (115) 2530
- Simulation:** Motor unit potential; Concentric needle EMG; Irregularity (115) 543
- Simulation studies:** Minimum norm estimates; EEG; Current density distributions (115) 1657
- Single motor unit:** Computed tomography; Minimal tonic firing rate; Jaw movement (115) 71
- Single motor unit:** Experimental muscle pain; Twitch force; Spike triggered averaging; Masseter muscle (115) 76
- Single sweep analysis:** Principal component analysis; Ocular artefacts; Blinking; Dyslexia; Event related potential (115) 609
- Single-fibre EMG:** Myasthenia gravis; Repetitive nerve stimulation; Jitter (115) 2776
- Single-pulse:** Epilepsy; Transcranial magnetic stimulation; Seizure; Safety; Paired-pulse (115) 2728
- Sinus arrests:** Sleep; Heart rate variability; Autonomic nervous system (115) 946
- Size:** Gamma-band oscillations; 40 Hz; Exogenous; Duration; Eccentricity (115) 1810
- Skeletal muscle:** Injury current; DC-currents; Magnetometry; SQUID; Ischaemia (115) 1027
- Skill:** Automaticity; Slow cortical potential; Brain-computer interface; Amyotrophic lateral sclerosis; Locked-in syndrome (115) 628
- Skin temperature:** Laser stimulation; Evoked potentials; Pain perception (115) 2629
- Sleep:** Autonomic; Cardiac; Heart; Sympathetic; Parasympathetic (115) 19
- Sleep:** Sleep spindle; Age; K complex (115) 471
- Sleep:** Background EEG; Epilepsy; Vagus nerve stimulation; Slow wave activity; Interictal epileptiform activity (115) 658

- Sleep;** Modafinil; Somatosensory evoked potentials; High frequency oscillations; Brain-stem (115) 919
- Sleep;** Angelman syndrome; Polysomnography; Electroencephalogram patterns (115) 938
- Sleep;** Sinus arrests; Heart rate variability; Autonomic nervous system (115) 946
- Sleep;** Restless legs; Diagnosis; Polysomnography; Actigraphy; Periodic limb movements; Electromyography; Clinical grading; Therapeutic evaluation; Suggested immobilization test (115) 1965
- Sleep;** Synchronization likelihood; Heart rate variability; Non-linear analysis (115) 2031
- Sleep;** Periodic leg movement; Wakefulness; Sleep stage; Spectral electroencephalographic analysis; Heart rate (115) 2236
- Sleep adaptation;** First night effect; Cortical topography; Antero-posterior changes (115) 1178
- Sleep deprivation;** Arousal; Awakening; Heart rate; Sleep stage; Autonomic system (115) 2442
- Sleep spindle;** Age; Sleep; K complex (115) 471
- Sleep stage;** Electroencephalography; Magnetoencephalography; Newborn; Somatosensory evoked magnetic field; Somatosensory evoked potential (115) 448
- Sleep stage;** Periodic leg movement; Wakefulness; Sleep; Spectral electroencephalographic analysis; Heart rate (115) 2236
- Sleep state;** Arousal; Awakening; Sleep deprivation; Heart rate; Autonomic system (115) 2442
- Slow cortical potential;** Automaticity; Brain-computer interface; Skill; Amyotrophic lateral sclerosis; Locked-in syndrome (115) 628
- Slow wave activity;** Sleep; Background EEG; Epilepsy; Vagus nerve stimulation; Interictal epileptiform activity (115) 658
- Small fibers;** Current perception threshold; Carpal tunnel syndrome; Progression; Clinical grade (115) 1921
- Smoking;** Alcoholism heritability; Event-related potentials; P300; Tobacco (115) 1374
- Social drinking;** Brain; Alcohol; EEG; Synchronisation; Theta; Gamma; Students (115) 2048
- Sodium channel;** Diabetic neuropathy; Refractory period; Refractoriness (115) 2525
- Sodium valproate;** Somatosensory evoked potentials; High-frequency oscillations; Migraine; Inhibitory interneurons; Gamma-aminobutyric acid (115) 1857
- Soleus H reflex;** Tibial nerve stimulation; Intraclass correlation (115) 116
- Somatosensory;** Selective attention; Event related brain potential; Spatial cognition (115) 596
- Somatosensory;** Stroke; Magnetoencephalography; Motor; Median nerve (115) 820
- Somatosensory cortex;** Minimum-norm estimate; L2 norm; Somatosensory evoked potential; Spatial accuracy (115) 534
- Somatosensory cortex;** Excitability; Magnetoencephalography; Motor cortex; Pharynx; Transcranial magnetic stimulation; Swallowing (115) 2382
- Somatosensory evoked field;** String players; Area 3b; Digit representation; High frequency oscillation; Fast spiking inhibitory interneuron; Training dependent reorganization (115) 435
- Somatosensory evoked magnetic field;** Electroencephalography; Magnetoencephalography; Newborn; Sleep stage; Somatosensory evoked potential (115) 448
- Somatosensory evoked potential;** Gating; Thalamus; Deep brain stimulation (115) 104
- Somatosensory evoked potential;** Electroencephalography; Magnetoencephalography; Newborn; Sleep stage; Somatosensory evoked magnetic field (115) 448
- Somatosensory evoked potential;** Transcranial direct current stimulation; Motor cortex; Neuroplasticity; Cortical excitability; Human (115) 456
- Somatosensory evoked potential;** Minimum-norm estimate; L2 norm; Somatosensory cortex; Spatial accuracy (115) 534
- Somatosensory evoked potential;** H-reflex; Transcranial magnetic stimulation; Locomotor; Plasticity (115) 858
- Somatosensory evoked potential;** Multisensory integration; Multimodal sensory area; Temporo-parietal junction; Inferior parietal lobule; Epicortical recording (115) 1145
- Somatosensory evoked potential;** 600 Hz wavelet; Oscillatory somatosensory evoked potential; Median nerve; Ulnar nerve; Dipole source analysis (115) 927
- Somatosensory evoked potential;** Intracerebral recordings; Stereotaxy; Somatosensory inputs; Median nerve; Motor cortex (115) 1616
- Somatosensory evoked potentials;** Movement related cortical potentials; Gaze direction; Spatial attention (115) 29
- Somatosensory evoked potentials;** Deep brain stimulation; Thalamus; Parkinson's disease; Pain (115) 424
- Somatosensory evoked potentials;** Uncrossed sensorimotor pathways; Motor evoked potentials; Intraoperative monitoring; Brain-stem malformation; Horizontal gaze palsy; Scoliosis (115) 576
- Somatosensory evoked potentials;** SI area; Intracortical potentials; High-frequency evoked responses; Epilepsy investigations; Epilepsy surgery (115) 647
- Somatosensory evoked potentials;** Modafinil; High frequency oscillations; Brain-stem; Sleep (115) 919

- Somatosensory evoked potentials;** High-frequency oscillations; 600 Hz; Somatosensory system; Arousal (115) 1392
- Somatosensory evoked potentials;** Cervical dystonia; High-frequency oscillations; Interneurons; N20 potential (115) 1624
- Somatosensory evoked potentials;** High-frequency oscillations; Migraine; Inhibitory interneurons; Sodium valproate; Gamma-aminobutyric acid (115) 1857
- Somatosensory evoked potentials;** Posterior tibial nerve; Intraoperative monitoring (115) 1925
- Somatosensory evoked potentials;** Centrifugal gating; Attention; Voluntary movement (115) 2223
- Somatosensory evoked potentials;** Median nerve; N10; Amyotrophic lateral sclerosis; Far-field potential (115) 2645
- Somatosensory inputs;** Somatosensory evoked potential; Intracerebral recordings; Stereotaxy; Median nerve; Motor cortex (115) 1616
- Somatosensory system;** Somatosensory evoked potentials; High-frequency oscillations; 600 Hz; Arousal (115) 1392
- Sound discrimination;** Mismatch negativity; Event related potential; Central auditory processing (115) 140
- Source localization;** Attention-deficit hyperactivity disorder; Event-related brain potentials; Visual selective attention; Frontal selection positivity; N2b (115) 1537
- Source localization;** EEG; Neuroimaging (115) 2195
- Source modeling;** Magnetoencephalography; Scalp-EEG; Interictal epileptiform activity; Localization (115) 1001
- Source modeling;** Magnetoencephalography; Scalp EEG; Interictal epileptiform activity; Localization (115) 1010
- Source reconstruction;** Equivalent current dipoles; Electroencephalographic; Magnetoencephalographic; Dipole localization accuracy (115) 1442
- Spasticity;** Electromyography; Group II; H-reflex; Spinal reflex (115) 1313
- Spatial accuracy;** Minimum-norm estimate; L2 norm; Somatosensory evoked potential; Somatosensory cortex (115) 534
- Spatial attention;** Somatosensory evoked potentials; Movement related cortical potentials; Gaze direction (115) 29
- Spatial cognition;** Selective attention; Somatosensory; Event related brain potential (115) 596
- Spatial correlation;** Brain-computer interface (BCI); Electroencephalography (EEG); Motor imagery; Event-related desynchronization (ERD); Time-frequency weighting (115) 2744
- Spatial EEG pattern;** Analytic phase; Basis function; Phase cone; Phase gradient; Self-organized criticality; Spontaneous cortical activity (115) 2089
- Spatio-temporal decomposition;** Feature extraction; Artefact; Principal component analysis; Cluster analysis; Blind separation; Focal activity; Reconstruction (115) 227
- Spectral analysis;** Theta; Alpha; Beta (115) 1802
- Spectral analysis;** EEG; Neonate; Asphyxia (115) 2461
- Spectral EEG topography;** Physiological self-regulation; EEG biofeedback; Low beta; beta1; Alpha/theta (115) 2452
- Spectral electroencephalographic analysis;** Periodic leg movement; Wakefulness; Sleep; Sleep stage; Heart rate (115) 2236
- Speech perception;** Mismatch negativity; McGurk effect; Short-term memory (115) 1989
- Speech syllable response;** Brainstem response; Auditory brainstem response; Frequency-following response; Effects of noise (115) 2021
- Spike;** Epilepsy; EEG dipole source localisation; Video EEG monitoring; Electrode (115) 2738
- Spike triggered averaging;** Experimental muscle pain; Twitch force; Single motor unit; Masseter muscle (115) 76
- Spike triggered averaging;** Decomposition algorithms; Motor unit number estimation (115) 564
- Spinal accessory nerve;** Multifocal motor neuropathy with conduction block; Intravenous immunoglobulin; Distal conduction block (115) 2323
- Spinal cord;** Cutaneous silent period; Exteroceptive suppression; A- δ fibers; Muscle synergy (115) 1052
- Spinal cord;** Tuberculosis; Pott's paraplegia; MRI; Evoked potential; MEP; SEP; Prognosis (115) 2267
- Spinal cord injury;** Electromyogram; Human; Recovery; Voluntary contraction (115) 1748
- Spinal cord injury;** Human; Prognosis; Tendon reflex; EMG; Acute; Crossed-adductor response (115) 2350
- Spinal cord injury;** Withdrawal reflex; Receptive field; Human (115) 2798
- Spinal excitability;** Transcranial magnetic stimulation; Intracortical inhibition; Myopathy (115) 85
- Spinal reflex;** Electromyography; Group II; H-reflex; Spasticity (115) 1313
- Spinocerebellar ataxias;** Machado-Joseph Disease; Sensory gating; Event related potentials; P50; Polyglutamine diseases (115) 2231
- Spontaneous cortical activity;** Analytic phase; Basis function; Phase cone; Phase gradient; Self-organized criticality; Spatial EEG pattern (115) 2089
- Spontaneous EEG;** Arousal level; CNV; Inverted-U shaped dose response curve (115) 2693

- Spontaneous oscillations;** Long-range temporal correlations; Alpha and beta oscillations; Electroencephalography; Detrended fluctuation analysis (115) 1896
- Sporadic Creutzfeldt-Jakob disease;** Iatrogenic Creutzfeldt-Jakob disease; EEG course; FIRDA; Periodic sharp wave complexes (115) 2467
- SQUID;** Injury current; DC-currents; Magnetometry; Skeletal muscle; Ischaemia (115) 1027
- Stability;** Analytic amplitude; gamma EEG oscillations; Hilbert transform; Information; Order parameter; Synchrony (115) 2077
- Standardized;** Tremor analysis; Technique; Physiologic tremor (115) 2151
- Standing posture;** Load information; Underwater experiment; H-reflex (115) 1296
- State;** Electroencephalographic; Peak alpha frequency; Cognitive preparedness; Traumatic brain injury; Working memory; Trait; Resting baseline (115) 887
- Statistical parametric mapping;** Alzheimer's disease; Donepezil; Acetylcholinesterase inhibitor; Brain single photon emission computed tomography; Quantitative EEG (115) 39
- Steady state evoked potential;** Oscillatory activity; Auditory evoked potential; Human (115) 699
- Steady-state evoked potentials;** Coherence; Interhemispheric functional correlation; Visual systems; Cortico-cortical connectivity (115) 1409
- Steady-state field;** Tonotopy; N1m; Magnetencephalography; Magnetic source imaging (115) 1249
- Stereotactic surgery;** Basal ganglia; Thalamus; Neuronal activity; Microrecording; Dystonia (115) 2542
- Stereotaxy;** Somatosensory evoked potential; Intracerebral recordings; Somatosensory inputs; Median nerve; Motor cortex (115) 1616
- Steroids;** Carpal tunnel syndrome; Therapy; Clinical follow-up; Electrophysiology (115) 1464
- Stimulator;** Ulnar neuropathy; Nerve conduction study; Inching test; Conduction delay (115) 1021
- Stimulus rate;** q-Sequence; Deconvolution; QSD; Superposition; Quasi-periodic; Auditory brainstem response; Evoked-responses; Overlapped responses (115) 2754
- Stochastic resonance;** Sensory information processing; revue of application; Vision; Tactile; Hearing; Perception; Psychophysics; electrophysiology; Hearing prostheses; Animal behavior; Modeling (115) 267
- Streaming;** F-complex; Evoked potentials; Auditory cortex (115) 1083
- Stretch reflex;** Sway; Diabetes; Neuropathy; Group II fibre (115) 779
- Stretch reflex;** Human experimental muscle pain; Trigemino-cervical reflexes; Trigeminal pain mechanisms (115) 1288
- String players;** Somatosensory evoked field; Area 3b; Digit representation; High frequency oscillation; Fast spiking inhibitory interneuron; Training dependent reorganization (115) 435
- Stroke;** Motor unit; Electromyogram; F-wave; Trans-synaptic degeneration (115) 97
- Stroke;** Motor cortex; Passive movement; Plasticity; Transcranial magnetic stimulation; Afference (115) 765
- Stroke;** Rehabilitation; Trunk; Exercise (115) 790
- Stroke;** Magnetoencephalography; Motor; Somatosensory; Median nerve (115) 820
- Stroke;** Vestibular reflexes; Vestibulocollic; Vestibulospinal (115) 1796
- Stroke;** Cortical reorganization; Transcranial magnetic stimulation; Motor outcome (115) 2144
- Students;** Brain; Alcohol; EEG; Social drinking; Synchronisation; Theta; Gamma (115) 2048
- Subarachnoid hemorrhage;** Delayed cerebral ischemia; Cerebral aneurysm; Vasospasm; Continuous EEG monitoring (115) 2699
- Subdural electrode;** Visual evoked potential; MT/V5; Motion perception; Cortical electric stimulation; Magnetoencephalography (115) 2056
- Subjective evaluation of sweating;** Hyperhidrosis; Evaporimetry; Conductance; Botulinum toxin treatment (115) 1909
- Subthalamic nucleus;** Finite element model; Diffusion tensor; Conductivity tensor (115) 589
- Subthalamic nucleus;** Electrical stimulation; Movement disorders; Neural prosthesis; Thalamus (115) 2431
- Succinic semialdehyde dehydrogenase (SSADH) deficiency;** Epilepsy; EEG; Photosensitivity; Heterozygosity; Absence (115) 1417
- Suggested immobilization test;** Restless legs; Diagnosis; Polysomnography; Actigraphy; Periodic limb movements; Sleep; Electromyography; Clinical grading; Therapeutic evaluation (115) 1965
- Superconducting quantum interference device (SQUID);** Magnetoneurography; Electroneurography; Magnetic field; Compound action field; Conduction block; Peripheral nerve (115) 2667
- Superposition;** q-Sequence; Deconvolution; QSD; Quasi-periodic; Auditory brainstem response; Evoked-responses; Stimulus rate; Overlapped responses (115) 2754
- Supervisory system;** Error; Ne/ERN; Reafferences; Laplacian (115) 2014

- Supplementary motor area;** Traumatic brain injury; Frontal lobe; EEG; Bereitschaftspotential; Movement related potential (115) 289
- Supplementary motor area;** Anterior cingulate cortex; Error-related negativity; Motor potentials; Event-related potentials; Theta; Oscillations; Phase resetting (115) 1821
- Supplementary motor areas;** Reaction time; Precueing; Primary motor areas; ERPs; Laplacians (115) 2164
- Suppression;** Phase synchronization; Auditory evoked potential; Schizophrenia; Gating; Electroencephalogram (115) 523
- Sural nerve;** Cutaneous reflexes; Human gait; Hereditary spastic paraparesis (HSP) (115) 1057
- Sustained maximal voluntary contraction;** Chronic fatigue syndrome; Central activation (115) 2518
- Swallowing;** Excitability; Motor cortex; Plasticity; Repetitive transcranial magnetic stimulation (115) 1044
- Swallowing;** Excitability; Magnetoencephalography; Motor cortex; Pharynx; Transcranial magnetic stimulation; Somatosensory cortex (115) 2382
- Sway;** Diabetes; Neuropathy; Stretch reflex; Group II fibre (115) 779
- Sympathetic;** Autonomic; Cardiac; Heart; Sleep; Parasympathetic (115) 19
- Synchronisation;** Brain; Alcohol; EEG; Social drinking; Theta; Gamma; Students (115) 2048
- Synchronization likelihood;** EEG; Alzheimer's disease; Mild cognitive impairment; Working memory (115) 1332
- Synchronization likelihood;** Heart rate variability; Non-linear analysis; Sleep (115) 2031
- Synchrony;** Analytic amplitude; gamma EEG oscillations; Hilbert transform; Information; Order parameter; Stability (115) 2077
- Systemic sclerosis;** Blink reflex; Central nervous system (115) 1917
- Tactile;** Stochastic resonance; Sensory information processing; Review of application; Vision; Hearing; Perception; Psychophysics; Electrophysiology; Hearing prostheses; Animal behavior; Modeling (115) 267
- Tactile interference;** Primary somatosensory cortex; Thumb; Little finger; Forearm; Area 3b; Magnetoencephalography (MEG) (115) 2638
- Target registration error;** MEG-MRI co-registration; Bite-bar; Fiducial localization error; Monte Carlo simulation (115) 691
- Technique;** Tremor analysis; Standardized; Physiologic tremor (115) 2151
- Temperature;** Compound muscle action potential; Repetitive nerve stimulation; Short exercise test (115) 1457
- Temperature;** Motor evoked potentials; Triple stimulation technique; Conduction block; Pyramidal tract (115) 2493
- Tempo;** Power and phase modulation; Time-frequency representations; Auditory evoked response; Music and speech processing (115) 1885
- Temporal lobe epilepsy;** Heart rate; Presurgical evaluation; Video EEG; Epilepsy surgery (115) 1169
- Temporal lobe epilepsy;** Electroencephalogram; Epilepsy surgery; Outcome (115) 1212
- Temporal lobe epilepsy;** Electroencephalogram; Averaging; Foramen ovale electrodes; Dipole modelling (115) 1423
- Temporal sharp waves;** Neonatal EEG; Brain ultrasound lesions; Premature infants; Neonatal neurodevelopmental assessment (115) 2479
- Temporo-parietal junction;** Multisensory integration; Multimodal sensory area; Inferior parietal lobule; Somatosensory evoked potential; Epicortical recording (115) 1145
- Tendon reflex;** Spinal cord injury; Human; Prognosis; EMG; Acute; Crossed-adductor response (115) 2350
- Tetanus toxin;** Microstimulation; Epilepsy; Dentate; Penicillin; Rat (115) 2502
- Thalamic lesion;** Night terrors; Polysomnography (115) 2489
- Thalamus;** Gating; Somatosensory evoked potential; Deep-brain stimulation (115) 104
- Thalamus;** Deep brain stimulation; Somatosensory evoked potentials; Parkinson's disease; Pain (115) 424
- Thalamus;** Movement disorder; Parkinson's disease; Essential tremor; Dystonia; High-frequency stimulation; Basal ganglia (115) 1239
- Thalamus;** Electrical stimulation; Movement disorders; Neural prosthesis; Subthalamic nucleus (115) 2431
- Thalamus;** Basal ganglia; Neuronal activity; Microrecording; Stereotactic surgery; Dystonia (115) 2542
- Thenar;** Transcranial magnetic stimulation; Hypothenar; Collision Technique; Motor-evoked potentials (115) 2558
- Therapeutic evaluation;** Restless legs; Diagnosis; Polysomnography; Actigraphy; Periodic limb movements; Sleep; Electromyography; Clinical grading; Suggested immobilization test (115) 1965
- Therapy;** Carpal tunnel syndrome; Steroids; Clinical follow-up; Electrophysiology (115) 1464
- Theta;** Spectral analysis; Alpha; Beta (115) 1802
- Theta;** Anterior cingulate cortex; Supplementary motor area; Error-related negativity; Motor potentials; Event-related potentials; Oscillations; Phase resetting (115) 1821

- Theta**; Brain; Alcohol; EEG; Social drinking; Synchronisation; Gamma; Students (115) 2048
- Theta burst stimulation**; Repetitive transcranial magnetic stimulation; Motor evoked potential; Intracortical inhibition (115) 1069
- Theta rhythm**; Short term memory; Delayed choice reaction time; Cerebral cortex; Electroencephalography; Alpha rhythm; Event related desynchronization/synchronization (115) 161
- Theta/beta ratio**; Arousal; Electrodermal activity; Attention deficit/hyperactivity disorder (115) 402
- Thoracic outlet syndrome**; Lower brachial plexus; Medial antebrachial cutaneous nerve; Electrodiagnosis; Nerve conduction; Neurogenic thoracic outlet syndrome; Brachial plexus lesion; Traumatic brachial plexus lesion; Neoplastic brachial plexus lesion (115) 2316
- Thumb**; Primary somatosensory cortex; Tactile interference; Little finger; Forearm; Area 3b; Magnetoencephalography (MEG) (115) 2638
- Tibial nerve**; Ulnar nerve; F waves; Nerve conduction studies; Late responses; F-wave latency; F-wave velocity (115) 2336
- Tibial nerve stimulation**; Soleus H reflex; Intraclass correlation (115) 116
- Tic**; Blink reflex; Tourette syndrome (115) 320
- Time-frequency representations**; Power and phase modulation; Auditory evoked response; Tempo; Music and speech processing (115) 1885
- Time-frequency weighting**; Brain-computer interface (BCI); Electroencephalography (EEG); Motor imagery; Event-related desynchronization (ERD); Spatial correlation (115) 2744
- Time-lag**; Coherence; EEG; Connectivity; Motor control; Volume conduction (115) 2292
- Time-variant bispectral analysis**; Quadratic phase coupling; Phase-locking; Neonatal EEG; Trace alternant; Gabor expansion (115) 2308
- Tobacco**; Alcoholism heritability; Event-related potentials; P300; Smoking (115) 1374
- Tonotopic map**; N100m response; Auditory evoked fields; Equivalent current dipole; Tonotopic organization; Short-term plastic change; Selective attention (115) 1592
- Tonotopic organization**; N100m response; Auditory evoked fields; Equivalent current dipole; Short-term plastic change; Selective attention; Tonotopic map (115) 1592
- Tonotopy**; N1m; Steady-state field; Magnetencephalography; Magnetic source imaging (115) 1249
- Topographic analysis**; Benign childhood epilepsy with centrotemporal spikes; Negative myoclonus; Carbamazepine; Jerk-locked averaging; Segmentation (115) 50
- Total sleep deprivation**; Multichannel EEG; Functional clustering (115) 2825
- Tourette syndrome**; Blink reflex; Tic (115) 320
- Trace alternant**; Quadratic phase coupling; Phase-locking; Neonatal EEG; Gabor expansion; Time-variant bispectral analysis (115) 2308
- Training dependent reorganization**; Somatosensory evoked field; String players; Area 3b; Digit representation; High frequency oscillation; Fast spiking inhibitory interneuron (115) 435
- Training**; Event related potential; Readiness potential; Motor learning; Habituation; Attention (115) 378
- Trait**; Electroencephalographic; Peak alpha frequency; Cognitive preparedness; Traumatic brain injury; Working memory; State; Resting baseline (115) 887
- Transcallosal inhibition**; Transcranial magnetic stimulation; Handedness; Paired-pulse technique; Corpus callosum; Corticospinal system; Gender (115) 1305
- Transcranial brain stimulation**; Motor cortex; Cerebral cortex atrophy; Alcohol; Transcranial magnetic stimulation (115) 112
- Transcranial brain stimulation**; Motor cortex; Transcranial magnetic stimulation; Epidural cortex stimulation (115) 834
- Transcranial direct current stimulation**; Magnetic resonance tomography; Diffusion-weighted imaging; Neuroplasticity; Human; Safety (115) 2419
- Transcranial direct current stimulation**; Somatosensory evoked potential; Motor cortex; Neuroplasticity; Cortical excitability; Human (115) 456
- Transcranial electrical stimulation**; Motor evoked potentials; Scoliosis; Absolute refractory period; Corticospinal tract; D wave (115) 1931
- Transcranial electrical stimulation**; Transcranial magnetic stimulation; Human motor cortex (115) 255
- Transcranial magnetic stimulation**; Intracortical inhibition; Spinal excitability; Myopathy (115) 85
- Transcranial magnetic stimulation**; Transcranial brain stimulation; Motor cortex; Cerebral cortex atrophy; Alcohol (115) 112
- Transcranial magnetic stimulation**; Error related negativity; Prefrontal cortex; Error detection; Error correction (115) 145
- Transcranial magnetic stimulation**; Human motor cortex; Transcranial electrical stimulation (115) 255
- Transcranial magnetic stimulation**; Flumazenil; Benzodiazepine; γ -Aminobutyric acid; Cortical excitability (115) 325
- Transcranial magnetic stimulation**; Short-interval intracortical inhibition; Motor evoked potential; Motor cortex; Hemispheric asymmetry (115) 330

- Transcranial magnetic stimulation;** Motor cortex; Frontal cortex; Facial muscle; Blink reflex (115) 341
- Transcranial magnetic stimulation;** Ataxia; Cerebellum; Cortical silent period; Motor evoked potential recruitment curve; Motor evoked potential (115) 348
- Transcranial magnetic stimulation;** Amyotrophic lateral sclerosis; Triple stimulation technique (115) 356
- Transcranial magnetic stimulation;** Intracortical inhibition; Cathodal electrical stimulation (115) 755
- Transcranial magnetic stimulation;** Motor cortex; Passive movement; Plasticity; Stroke; Affference (115) 765
- Transcranial magnetic stimulation;** Movement threshold; Hot spot; Motor cortex; Human (115) 812
- Transcranial magnetic stimulation;** Transcranial brain stimulation; Motor cortex; Epidural cortex stimulation (115) 834
- Transcranial magnetic stimulation;** H-reflex; Somatosensory evoked potential; Locomotor; Plasticity (115) 858
- Transcranial magnetic stimulation;** Motor evoked potentials; Motor cortex; Facial muscles; Coil orientation; Current direction (115) 862
- Transcranial magnetic stimulation;** Cortical excitability (115) 1063
- Transcranial magnetic stimulation;** Cortical silent period; Variability; Recruitment; Current flow direction (115) 1076
- Transcranial magnetic stimulation;** Plasticity; Immobilization; Sensorimotor restriction; Cortical hyperexcitability; Motor system (115) 1264
- Transcranial magnetic stimulation;** Handedness; Paired-pulse technique; Transcallosal inhibition; Corpus callosum; Corticospinal system; Gender (115) 1305
- Transcranial magnetic stimulation;** Coil design; Electric field properties; Focality; Efficiency (115) 1697
- Transcranial magnetic stimulation;** Neuropharmacology; CNS active drugs; Motor cortical excitability; Motor evoked potential; Corticospinal projection; Human (115) 1717
- Transcranial magnetic stimulation;** Institutional review board; Minimal risk; Ethics; Neurophysiology; Children (115) 1730
- Transcranial magnetic stimulation;** Progressive supranuclear palsy; Corticobasal-ganglionic degeneration; Multiple system atrophy; Ipsilateral motor response (115) 1786
- Transcranial magnetic stimulation;** Stroke; Cortical reorganization; Motor outcome (115) 2144
- Transcranial magnetic stimulation;** Primary motor cortex; Plasticity; Fluoxetine; Serotonin (115) 2157
- Transcranial magnetic stimulation;** Fatigue; Multiple sclerosis; Voluntary contraction (115) 2364
- Transcranial magnetic stimulation;** Excitability; Magentoencephalography; Motor cortex; Pharynx; Somatosensory cortex; Swallowing (115) 2382
- Transcranial magnetic stimulation;** Thenar; Hypothenar; Collision Technique; Motor-evoked potentials (115) 2558
- Transcranial magnetic stimulation;** Epilepsy; Seizure; Safety; Single-pulse; Paired-pulse (115) 2728
- Trans-synaptic degeneration;** Stroke; Motor unit; Electromyogram; F-wave (115) 97
- Traumatic;** Acceleration; Brainhemorrhage; Deceleration; Diffuse axonal injury; Electrophysiology; Neurophysiology (115) 4
- Traumatic brachial plexus lesion;** Lower brachial plexus; Medial antebrachial cutaneous nerve; Electrodiagnosis; Nerve conduction; Thoracic outlet syndrome; Neurogenic thoracic outlet syndrome; Brachial plexus lesion; Neoplastic brachial plexus lesion (115) 2316
- Traumatic brain injury;** Frontal lobe; EEG; Bereitschaftspotential; Movement related potential; Supplementary motor area (115) 289
- Traumatic brain injury;** Electroencephalographic; Peak alpha frequency; Cognitive preparedness; Working memory; Trait; State; Resting baseline (115) 887
- Traumatic brain injury;** Frontal lobe; EEG; Bereitschaftspotential; Movement-related potential; Recovery (115) 2677
- Tremor analysis;** Standardized; Technique; Physiologic tremor (115) 2151
- Tremor pathophysiology;** Orthostatic tremor; Magnetic stimulation; Nerve stimulation (115) 569
- Trigeminal pain mechanisms;** Human experimental muscle pain; Stretch reflex; Trigemino-cervical reflexes (115) 1288
- Trigeminal-cervical reflex;** Exteroceptive suppression; Convergence; Referred muscle pain (115) 1399
- Trigemino-cervical reflexes;** Human experimental muscle pain; Stretch reflex; Trigeminal pain mechanisms (115) 1288
- Triple stimulation technique;** Transcranial magnetic stimulation; Amyotrophic lateral sclerosis (115) 356
- Triple stimulation technique;** Motor evoked potentials; Temperature; Conduction block; Pyramidal tract (115) 2493
- Trunk;** Stroke; Rehabilitation; Exercise (115) 790
- Tuberculosis;** Pott's paraplegia; Spinal cord; MRI; Evoked potential; MEP; SEP; Prognosis (115) 2267
- Tuberous sclerosis complex;** Clinical neurophysiology; Pediatric epilepsy surgery; Quantitative ictal intracranial electroencephalography; Focal cortical dysplasia (115) 2718
- Twitch force;** Experimental muscle pain; Spike triggered averaging; Single motor unit; Masseter muscle (115) 76

- Two-point discrimination;** Event-related potentials; Attention; Judgment; P3a; P3b (115) 1875
- Ulnar nerve;** Somatosensory evoked potential; 600 Hz wavelet; Oscillatory somatosensory evoked potential; Median nerve; Dipole source analysis (115) 927
- Ulnar nerve;** Tibial nerve; F waves; Nerve conduction studies; Late responses; F-wave latency; F-wave velocity (115) 2336
- Ulnar neuropathy;** Nerve conduction study; Inching test; Stimulator; Conduction delay (115) 1021
- Ultrasound;** Median nerve; Muscle; Carpal tunnel syndrome; Imaging; Peripheral nerve; Nerve motion; Fasciculation; Median artery (115) 495
- Uncrossed sensorimotor pathways;** Somatosensory evoked potentials; Motor evoked potentials; Intraoperative monitoring; Brain-stem malformation; Horizontal gaze palsy; Scoliosis (115) 576
- Underwater experiment;** Load information; H-reflex; Standing posture (115) 1296
- Unpleasantness;** Pain; Laser evoked potentials; Localisation (115) 1846
- Vagus nerve stimulation;** Sleep; Background EEG; Epilepsy; Slow wave activity; Interictal epileptiform activity (115) 658
- Variability;** Transcranial magnetic stimulation; Cortical silent period; Recruitment; Current flow direction (115) 1076
- Vascular dementia;** Mild Alzheimer's disease; Electroencephalography; Alpha rhythm; Delta rhythm (115) 299
- Vasospasm;** Delayed cerebral ischemia; Subarachnoid hemorrhage; Cerebral aneurysm; Continuous EEG monitoring (115) 2699
- VEP;** Human; Visual cortex; Nystagmus; Pattern-onset; Pattern-reversal (115) 2659
- Very low birth weight children;** Auditory evoked potential; Object naming; Mismatch negativity (MMN) (115) 179
- Vestibular apparatus;** Vestibulocollic reflex; Motor unit firing (115) 2567
- Vestibular evoked myogenic potential;** Galvanic; Electrical; Body sway; Labyrinth; Posturography (115) 807
- Vestibular reflexes;** Stroke; Vestibulocollic; Vestibulospinal (115) 1796
- Vestibulocollic;** Vestibular reflexes; Stroke; Vestibulospinal (115) 1796
- Vestibulocollic reflex;** Vestibular apparatus; Motor unit firing (115) 2567
- Vestibulospinal;** Vestibular reflexes; Stroke; Vestibulocollic (115) 1796
- Video EEG;** Heart rate; Temporal lobe epilepsy; Presurgical evaluation; Epilepsy surgery (115) 1169
- Video EEG monitoring;** Epilepsy; Spike; EEG dipole source localisation; Electrode (115) 2738
- Viral load;** Human immunodeficiency virus; P3a; P3b; Antiretroviral therapy (115) 1583
- Vision;** Stochastic resonance; Sensory information processing; Revue of application; Tactile; Hearing; Perception; Psychophysics; Electrophysiology; Hearing prostheses; Animal behavior; Modeling (115) 267
- Vision;** Oscillatory potentials; Gamma band response; Pattern VEP; Contrast stimulation; Healthy volunteers; Factor analysis (115) 1669
- Visual cortex;** Autism; Electroencephalography; Pervasive developmental disorder; Rapid eye movement sleep (115) 1368
- Visual cortex;** Human; Nystagmus; VEP; Pattern-onset; Pattern-reversal (115) 2659
- Visual discrimination;** EEG correlation index; Visual perception disabilities; Occupational outcome; Adolescents (115) 2574
- Visual electrophysiology;** Congenital nystagmus; Electroretinogram (ERG); Visual evoked potentials (VEP) (115) 461
- Visual evoked potential;** Dyslexia (115) 90
- Visual evoked potential;** Vitamin B₁₂ deficiency; Magnetic resonance imaging; Visual function (115) 914
- Visual evoked potential;** MT/V5; Motion perception; Cortical electric stimulation; Subdural electrode; Magnetoencephalography (115) 2056
- Visual evoked potentials;** Flicker; Fourier analysis; Optic glioma; Optic pathways (115) 217
- Visual evoked potentials;** Krabbe disease; Brain-stem auditory evoked potentials; Neurophysiologic studies (115) 1653
- Visual evoked potentials (VEP);** Congenital nystagmus; Electroretinogram (ERG); Visual electrophysiology (115) 461
- Visual function;** Vitamin B₁₂ deficiency; Visual evoked potential; Magnetic resonance imaging (115) 914
- Visual perception disabilities;** EEG correlation index; Visual discrimination; Occupational outcome; Adolescents (115) 2574
- Visual processing;** Visual-spatial; Selective attention; Eye gaze (115) 1161
- Visual selective attention;** Attention-deficit hyperactivity disorder; Event-related brain potentials; Source localization; Frontal selection positivity; N2b (115) 1537
- Visual systems;** Coherence; Interhemispheric functional correlation; Steady-state evoked potentials; Cortico-cortical connectivity (115) 1409
- Visual word recognition;** Event related potential; Lexical decision; Lexical access; Word length; Word frequency (115) 1090
- Visual-spatial;** Selective attention; Visual processing; Eye gaze (115) 1161

- Visuospatial attention;** Central cues; Peripheral cues; P1; Event-related potentials (115) 199
- Vitamin B₁₂ deficiency;** Visual evoked potential; Magnetic resonance imaging; Visual function (115) 914
- Volume conduction;** Coherence; EEG; Connectivity; Motor control; Time-lag (115) 2292
- Voluntary contraction;** Electromyogram; Spinal cord injury; Human; Recovery (115) 1748
- Voluntary contraction;** Transcranial magnetic stimulation; Fatigue; Multiple sclerosis (115) 2364
- Voluntary movement;** Somatosensory evoked potentials; Centrifugal gating; Attention (115) 2223
- Voluntary muscle contraction;** Repetitive transcranial magnetic stimulation; Intracortical inhibition; Primary motor cortex (115) 1514
- Voluntary muscle contraction;** Motor activity-related cortical potential (MRCP); Negative potential (NP); Electroencephalography (EEG); Electromyography (EMG); Muscle fatigue; Muscle strength (115) 2372
- Wakefulness;** Periodic leg movement; Sleep; Sleep stage; Spectral electroencephalographic analysis; Heart rate (115) 2236
- Wavelets;** EEG; Beta rhythm; Action observation; Mirror neurons (115) 1760
- Wavelet analysis;** Auditory evoked potentials (115) 1114
- Weight-bearing;** Postural control; Reflex; Cerebrovascular accident (115) 2789
- Withdrawal reflex;** Receptive field; Spinal cord injury; Human (115) 2798
- Word frequency;** Visual word recognition; Event related potential; Lexical decision; Lexical access; Word length (115) 1090
- Word length;** Visual word recognition; Event related potential; Lexical decision; Lexical access; Word frequency (115) 1090
- Word method;** Event-related potentials; Directed forgetting; Predictive validity; Inhibition; Differential encoding (115) 369
- Word recognition;** Auditory ERP; Children; Adults; Phonological priming (115) 409
- Working memory;** Electroencephalographic; Peak alpha frequency; Cognitive preparedness; Traumatic brain injury; Trait; State; Resting baseline (115) 887
- Working memory;** EEG; Alzheimer's disease; Mild cognitive impairment; Synchronization likelihood (115) 1332
